1929-S. P. McMordie, 736; M.

We have just completed another wonderful year, with profit earnings never before equalled. Our Directors have therefore inaugurated the principle of allowing a Special Bonus on maturing participating policies. The basis for 1929 may be summarized as

follows:

l'in

On policies ten years in force, maturing by death or (on 'reserve dividend' policies) by the expiry of the reserve dividend period, a bonus of 10 per cent of the reserve, increasing yearly to 15 per cent on policies in force twenty years or longer; on endowments, at maturity, a bonus of 10 per cent of the face value of policies ten years in force, increasing yearly to 15 per cent on policies in force twenty years or longer.

Details will be given in the forthcoming annual report. This special bonus is in addition to, and independent of, the usual annual profit distribution, the scale for which, for the ninth consecutive year, will again be increased.

We congratulate our members on this happy announcement. It has been made possible only by the large profits earned on the securities selected for the investment of the Company's funds. As ninety-five per cent of all surplus earned by the participating assurances accrues to our policyholders themselves, they 24. enjoy practical mutuality, combined with the enterprise and stability of stock management. The effect of this combination is evidenced by the results.

We congratulate Mr. Gordon on his work and also on the fact that his fellow citizens have seen well to honor him for it. Terrace is very close to Prince Rupert. The 90 miles which separates the two places seems even less, owing to the fact that there is nothing but wilderness between. Terrace is almost looked on as a suburb of Prince Rupert.

# SECURE BOAT SERVICE

A proposal has been made to put on a boat service to connect this city with the canneries and other points in the neighborhood. It is very important that this service shall. be an efficient one. It is possible that in order to get this efficiency some federal aid may be necessary. Quick action is very desirable in this matter and as all Prince Rupert business men are interested in the outcome all should get behind the project.

What is needed is a boat that will carry freight and passengers. Such a boat would cost a good deal. Some kind of service is practically assured, but what is needed is a real service that will be in a position to cater to all kinds of business.
