News of the Mines

AROUND PRINCE RUPERT Chances of Portland Canal District Good; Outstanding Developments in Stewart Field; Power at Silverado

The Portland Canal district offers very good possi-Ities of developing profitable mines, according to R. Todson, M.E., who spent the past season at Stewart. the general geology of the entire district is similar and the ore is, to some extent at least, associated with the Reports for Year Shows Much structural conditions which do not appear to be confined to any one particular section. This means that, as the dructural conditions are under-
