PAPER MILL AT KITIMAAT

Possibility of Pellat Interests Being Amalgamated With Other Timber Holdings

Rumors are recurrent in this district that a large pulp and paper mill industry is to be established in the Kitimaat and Kitsumkalum valleys with the mill at Kitimaat at the head of the arm south of Prince Rupert bearing that name. There are large stands of timber in these valleys, much of which has been held for years under special license.

The estate of Sir Henry Pellat of Toronto was heavily interested in the timber in Kitsumkalum Valley and an effort was made to turn these holdings into account by establishing a mill at Remo. While the timber was large, it provided little clear lumber and the decision was forced upon the promoters that it was more suitable for pulp than lumber.

W. H. Altemus of East Orange, New Jersey, recently visiting the interior, stated that steps were being taken to consolidate the several individual timber holdings in the two valleys with the view to launching the pulp and paper mill project. Ground for the undertaking, it was suggested might be broken and construction started next year. There may be a railway outlet for the timber areas to the pulp mill at Kitimaat.

"BELLAMY TRIAL" THRILLS TO END

Tense Dramatic Interest Is Sustained to a Suprise Climax

Murder will out!

But you will have to wait until the very last footage of "The Bellamy Trial" before you learn who killed Mimi Bellamy.

And when you find out, after witnessing one of the greatest surprise endings ever filmed, don't rush home and tell all your friends—let them have the same thrill you did when you saw the picture!

Cast Has Great Talent

The cast, headed by Leatrice Joy, is one of the greatest assemblages of screen talent seen in some time. As Sue Ives, the woman on trial, Miss Joy gives a splendid performance, and George Barraud, who plays opposite as the loyal husband, is an ideal performer for this role.

The murder mystery is skillfully unfolded in the courtroom when a man and woman are on trial for their lives, accused of having slain the wife of the man accused. The weight of the evidence is against them, but a last-minute surprise witness turns the favor in their balance. The jury votes an acquittal.

And the question then is:

Who DID kill Mimi Bellamy?

Bell does not permit his story to leave his hero and heroine under the cloud of suspicion. Deftly and with a cautious eye upon the plausibility of judicial tactics, he moves suddenly with a stroke of dramatic surprise and reveals the guilty one. There is punch and heart throb in those final scenes that will send you out of the theatre with your heart beating like a trip-hammer and a lump in your throat.
