PRINCE RUPERT, B.C., TUESDAY, AUGUST 27, 1929

PRICE FIVE CENTS

Peace River and Prince Rupert Problems Are Identical and a Joint Council Is Now Proposed

There appeared in a recent number of the Peace River Record a letter from Page Rideout dealing with the Pacific outlet from which an important part is published here, together with an editorial comment on it from the same paper. The editorial follows:

"In this issue appears a letter by Page Rideout, who again takes up the question of a coast outlet and the development of the port of Prince Rupert. Owing to the length of Mr. Rideout's letter, it was necessary to delete portions of it, but the principal points are given in full. Mr. Rideout strikes one point in particular which

SLACKENING UP ON EMIGRATION

People From States Coming to Canada
 Instead of Canadians
 Leaving

WASHINGTON, Aug. 27.—The number of Canadians who emigrate to the United States continues to decrease. This is shown by figures issued by the bureau of immigration here for the period between Jan. 1 and June 30, 1929. During the period 29,447 immigrants entered from Canada, while during the fiscal year ending on the same date, the influx of Canadians totalled 64,444. During the year 1928, Canadian figures were 73,156.

An analysis of the department indicates a steady decline in the number of native born Canadians entering the United States. Figures are based on the non-quota visas which native Canadians must obtain for immigration.

On the other side of the ledger figures available here indicate a new high for United States immigration to Canada of 30,706 for 1929. This was a jump of 30 per cent over the 1928 estimate of 21,363. United States citizens have entered Canada in increasing numbers from 1925, when only 15,914 crossed the border. The previous high year was 1922 when 29,412 emigrated to the Dominion.

GRAF ZEPPELIN MAKING PROGRESS EASTERN FLIGHT

TUCSON, Arizona, Aug. 27.—The Graf Zeppelin passed here at noon today on her way from Los Angeles, Cal., to Lakehurst, N.J., the airport of New York, via El

SIR HENRY IS COMING NORTH

Left Last Night for Prince Rupert and Edmonton

VICTORIA, Aug. 27.—Sir Henry Thornton, chairman and president of the Canadian National Railways, completed a busy four days' visit to Victoria and Vancouver Island yesterday afternoon when he left for Prince Rupert, where he and his party sailed last night for Prince Rupert. During his stay on the island, Sir Henry met a large number of delegations and prominent businessmen and also visited Chemainus, Nanaimo, Coquitlam and Cumberland.

The intrusion of unexpected important business matters in eastern Canada which will require his presence in Montreal much earlier than he had expected will make it necessary for Sir Henry to shorten his western inspection tour considerably. He will not be able to visit Calgary, Moose Jaw, Regina and Prince Albert as he had intended, but will have to proceed from Prince Rupert to Edmonton, where he will spend Friday, thence to Saskatoon for Saturday and Winnipeg next Sunday.

The trip of the president to the coast has been one of the most successful in his career. Freedom from engagements of a public character has permitted him to meet a much larger number of businessmen in a more personal way and to devote more of his time to the administrative affairs of the company. During his stay he announced the introduction next summer of three new large steamships to the coastal fleet of the company and the resumption of the triangular service by the company between Vancouver, Victoria and Seattle. In addition, the new boats will permit the company to augment its service to Prince Rupert and Alaska.

"As Mr. Rideout has pointed out, much of the betterment of conditions secured by the maritime provinces was attained through the formation of a similar organization. A Peace River-Prince Rupert council would both stabilize and emphasize any demands that might be made from the north upon our respective governments, and with such a sponsoring those demands would be more apt to receive immediate government recognition than would the requests of smaller individual groups scattered over a thousand miles of territory. It is a proposal worthy of the earnest consideration of every board of trade in the north and at the coast

(Continued on page four.)

DAFOE SITS U.S.-GERMAN COMMISSION

Editor Winnipeg Free Press Appointed by United States to Position

WINNIPEG, Aug. 27.—John W. Dafoe, editor of the Manitoba Free Press, has been chosen by the United States government to serve as a non-national commissioner on the international commission appointed under the treaty for the advancement of peace between Germany and the United States. Dafoe has accepted the position.

The treaty sets forth that failing a settlement of any dispute by diplomatic proceedings, it be referred to the international commission.

PALATIAL YACHT OF LOS ANGELES IS PORT VISITOR

The palatial power yacht Debutante, belonging to James Wilcox Drake of Los Angeles, prominent stock broker of that city, arrived in port yesterday afternoon after a leisurely two weeks' cruise up the coast from Los Angeles and tied up at the floats of the Pacific Salvage Co. Accompanying Mr. Drake on the trip was a party of friends, some of whom will proceed south on the Princess Charlotte tomorrow afternoon.

The Debutante will turn back for the south from here.

BRITISH MARINES FIRED ON ARABS DEFENDING JEWS

CAIRO, Aug. 27.—British marines opened fire this afternoon at Haifa in an attempt to quell an Arab attack on the Jewish quarter of the city in which many were killed and wounded, both Jews and Arabs.

PRINCE AS AN AIR EXPERT

Has Taken Secret Lessons and Handled Big Passenger Plane

LONDON, Aug. 27.—The Daily Mail states that the Prince of Wales has developed into a first-class airplane pilot, as a result of secret lessons taken by him at an airfield near London. He recently took the controls of a large passenger liner he specially chartered for an urgent trip to the continent.

TWO OFF ON CHANNEL SWIM

DOVER, Aug. 27.—Ishak Helmy, Egyptian, and Dr. H. C. Brewster of London has started to swim the channel in an endeavor to win the Dover town gold cup. Helmy started from here at 7 and Brewster from South Foreland at noon.

R. H. Gurd, accountant at Casselary and Mrs. Gurd will sail this afternoon on the Catala for Vancouver.

Construction Work Will be Under Way at Once of New Ecstall Plant

"The job will be actively under way at once," stated L. C. Jacobs of Montreal, construction manager for the Power Corporation, in speaking yesterday afternoon of the corporation's plans for local hydro-electric development. Mr. Jacobs explained, however, that there were such preliminary things to be carried out as a wharf for handling of supplies and camp buildings at Falls River and it would probably take the better part of three months before construction work could be started on the actual site and a full crew of men employed for the purpose. Construction of transmission lines would probably not be commenced until next spring, although it was possible some clearing might be done this winter, Mr. Jacobs said.

Now that the site had been settled upon for development and most of the preliminary information had been obtained, Mr. Jacobs said that the object of the corporation was to actually build something and it is intended to lose no time in doing that.

Briefly describing the plans for the Falls River development, Mr. Jacobs said it was the intention to put up buildings and substructures looking to an ultimate development of 30,000 horse-power. This will probably be accomplished in four units, each unit being put in as the load warranted. Mr. Jacobs said that Falls River naturally lent itself to a large power development. The dam at the crest of the falls will also be built on the unit basis, so it may be heightened from time to time as found necessary. The power house will be located about 750 feet below the dam and connected to same with steel penstocks. The power house site is in turn about 500 feet from the confluence of Falls River with the Ecstall River. For the present power will be developed under an initial head of about 200 feet. The site is fifteen miles from Port Essington, or about forty miles from Prince Rupert.

Mr. Jacobs will remain here the most of this week making plans for getting construction work under way. E. P. Callaghan will be superintendent in charge of the construction with F. L. Racey his assistant. Mr. Jacobs will pay a visit to Stewart before proceeding to Montreal.

PRICE OF WHEAT

VANCOUVER, Aug. 27.—The quotation of Number One Northern wheat here today was for spot cash \$1.54.

Unanimous Nomination Given to J. C. Brady by Conservatives of Skeena Riding in Convention

Waiving all formalities in connection with the matter, Conservatives of Skeena riding, in convention last night, tendered a unanimous nomination to James C. Brady, M. P., to again be their candidate at the next federal election. Delegates were in attendance from all parts of the riding except the Queen Charlotte Islands, which were represented by proxies. No other name was heard in connection with the nomination besides Mr. Brady's and his choice was settled upon without delay as soon as the convention opened for business.

He was proposed by James Nelson of Terrace and seconded by George Lawson of Wistaria. C. H. Orme presided over the gathering which was very enthusiastic.

Mr. Brady spoke at some length in accepting the nomination. He expressed deep appreciation at the confidence which had been imposed in him and pledged himself to continue to work as wholeheartedly for the interests of the riding if elected to serve again as he had endeavored to do in the last four years. Politically, he spoke optimistically as to the prospects of the Conservative party in the federal field.

A number of the delegates from

MADE FLIGHT FROM ARCTIC INTO DAWSON

Monoplane Made Trip From Mackenzie River in Six and Three-Quarter Hours

HERE LAST NIGHT

En route back to Winnipeg after its non-stop flight from Aklavik to Dawson, the Western Canada Airways Fokker monoplane stopped overnight at Prince Rupert, arriving from Carcross at 6 o'clock last evening and taking off at 6:45 this morning for Prince George. Pilot Brintnell reported that he had had an excellent flight and he expects to be back in Winnipeg within the next day or so, making only brief stops en route to refuel as was done at the Imperial Oil Co.'s dock here.

The plane was one of the largest and finest ever seen here. Many people mistook it at first for the Yukon Airways plane which is expected here from the north this week to engage in barnstorming in connection with the exhibition.

DAWSON, Aug. 27.—Completing a non-stop flight of 860 miles from Aklavik, at the mouth of the Mackenzie River in the Arctic, a Western Canada Airways Fokker monoplane arrived here Sunday evening, covering the distance in six hours and three-quarters. The machine was piloted by W. L. Brintnell and had as passengers, O. S. Plinie, director of the Northwest Territories and the Yukon, his secretary and L. A. Giroux, legal adviser and mechanic.

The flight was sponsored by the Federal Government for the purpose of testing the feasibility of the air route, and as part of the scheme to open up air communication with the remote sections. The route followed was via McDougall Pass famous during the first Klondike rush and thence along the Porcupine and Yukon Rivers.

Arab-Jewish Troubles Spread To Syria and British Rush Soldiers and Ships to Scene

VALETTA, Malta, Aug. 27.—Two battalions of British troops, the aircraft carrier Eagle, the battleship Royal Sovereign and two destroyers have been ordered to Palestine today.

BEIRUT, Syria, Aug. 27.—Reports reaching here today state that hostilities between Arabs and Jews had extended beyond the frontiers of Palestine. The French authorities have sent a large detachment of troops to protect the Jewish quarter in Damascus.

JERUSALEM, Aug. 27.—Violent demonstrations by Arabs and Jews today followed the arrival of a Jewish delegation from Gaza into the Holy City. The British authorities have been forced to evacuate many Jews from their homes and concentrate them in heavily guarded hotels.

British troops continue to arrive in Palestine by big troop-carrying airplanes. Airplanes constantly patrol Jerusalem and environs where the markets and shops are closed and the streets deserted.

The Jewish dead in four days number more than one hundred, including fifteen American students at Hebron College.

Southern Palestine momentarily seems quiet, but new fierce outbreaks between wild bearded Islamic tribesmen and Jews are reported from northeastern Palestine, particularly from the vicinity of Haifa. It is understood that the Arabs are obtaining arms and ammunition from Trans-Jordania.
