### They were living in a Fool's Paradise

TACK was earning \$75 a week. They had a I fine apartment, lots of friends. Life was one continuous party. Then Jack took sick. First an appendix; then, as he was getting over that, "flu" set in and pneumonia developed. Jack was laid up for 15 weeks. Of course, he hadn't a penny saved, so his friends and his wife's parents had to come to their financial assistance.

But that wasn't all. If Jack had died he would have had to be buried at somebody else's expense. Why? Because he and his wife were both living for today and spen every penny that he earned.

His illness taught him a lesson. He now owns \$20,000 of Confederation Life Insurance. It only costs him \$12.50 a week-but it insures a life competence to Mary.

If you are married and are earning \$75 a week, or more, you should own at least \$20,000 of life insurance. If you are not carrying this amount, let us assist you to get it. As a preliminary, write for our pamphlet entitled "If You Were Totally Disabled." Address:

The fisheries convention which takes place here is arousing a lot of interest on the waterfront. It is a convention of the people who handle fish and not of the fishermen who are today much too busy on the fishing grounds to come in to the city and talk.
