PARIS, Jan. 10.—A non-stop round the world flight with re-fueling of the plane in the air is the latest project of the Fokker aviation firm. The details have not yet been worked out, but a flight from Paris to Paris will be the objective.

### KING GAINS IN STRENGTH

General Elation Is Felt at Improvement in Monarch's Condition

LONDON, Jan. 10.—It is authoritatively stated at Buckingham Palace that the King passed a fair night and there was no change in his condition. There was gratification at both the palace and general today that physicians had been able last night to report a slight gain in strength. As persistence of extreme weakness continued to be the main hindrance to recovery, this gain was welcomed everywhere.

There was a growing confidence that the King's recuperative powers had not been misjudged. Improvement is extremely slow, but not slower than was anticipated.

Tonight's bulletin said: "The King has had a quiet day. There is no change to report in His Majesty's condition."

### FAST TIME IN LOADING SHIP

Steamer Gracefield to Sail Tomorrow With Grain Cargo; Hindpool Coming Friday and Adra Sunday

The British steamer Gracefield, Prince Rupert's fifth grain ship of the season, which reached port about 1 o'clock yesterday afternoon from the old country, being already lined and not requiring to be fumigated, immediately went on berth at the Alberta Wheat Pool's elevator and at 3 o'clock pouring of grain into the vessel was underway. Tomorrow morning, loading of the vessel is expected to be completed and she will sail during the day with a full cargo for the United Kingdom or continent. Weather is favorable and a snappy job is being made of loading the Gracefield.

The British steamer Hindpool is expected to arrive in port tomorrow and, also being lined, will start loading at once. The Adra, also a British ship, is now expected to arrive on Sunday.

As a result of the loading of these three vessels, grain is starting to move again from the prairies to Prince Rupert, and, within a few days, the movement will once more be in full swing.

The Gracefield came from Cardiff, Wales, which port she left on December 4, making the passage in 35 days which usually takes forty. Good weather featured the voyage which was uneventful.

### More British Settlers and Fewer from Central and Eastern Europe to be Brought to Canada in 1929

TORONTO, Jan. 10.—The Globe this morning has the following dispatch from Montreal: "Important changes and reforms are taking place in the Canadian immigration policy. This was evident today when it was learned here that both the railways, C.N.R. and C.P.R., have been notified by the department of immigration at Ottawa that the immigration of foreigners from central and eastern Europe has been cut down during the present year by one-third, from 60,000 in 1928 to 40,000 this year. The formal reason given is the condition of the labor market in Canada."

"Significance, however, is attached to the notification by reason of the accompanying announcement that it is proposed to interest British immigration to Canada this year to double what it was last year."
