## CHURCH CHURCH Sport Chat

There are quite a few boxing fans who believe that Fred Parker, as he claims, really can make a better showing against Dido Gurvich than he did last week. As a matter of fact, there seems to be a general inclination to give the Toronto boy a chance to redeem himself. He is a clean cut young fellow and has won a lot of friends who still have confidence in him despite the affair of last week. They say that he really has something if he can get going. Since Parker has. promised that he will get going. they may make a fight of it after all. The boy has proved that he has a lot of courage and it is to Badminton, which has made rebe hoped he has some fight as markable strides in Canada dur-

The "bird" is a semi-circular field 0. affair, not quite as large as a handball. Small feathers encircle the "bird," and, as it is not lively like a tennis or hand ball, it becomes "dead" when striking the floor, Consequently, all return shots must be made when the "bird" is in the air. The racquet that is used is lighter than that used in tennis, although the face is almost as large. The handle is not quite as long as that of a squash racquet. Babminton is a favorite game in England and Canada. Recently a "babminton party" was held on the F. H. Goodyear private courts, with members of the tennis and squash club participating. Now a weekly "babminton party" is to be held on the club courts.
