TEMPORARY EXPEDIENT

It was intimated by the acting minister of public tremely well pleased. D. C. Mc- examination of Kelly for disworks in a statement issued by him that possibly an ar- Kechnie, representing the Consol- covery. rangement might be made with the railway company to idated Mining & Smelting Co. and carry automobiles between Twee and Towns Company to H. T. Airey, of the Britannia carry automobiles between Tyee and Terrace as a tem- Mining Co., have both examined porary expedient. A similar suggestion was made to Mr. the property recently. It is re-Pattullo when he was minister of lands and passed on by ported that several more blind him to a most increase the several and passed on by veins, showing four feet of good him to a meeting of the road committee in Prince Rup- ore on the face, were recently enert. Some objection was taken to the proposal in those countered on the property. This days and the objections still hold good. It is that if an makes eight veins now showing on expedient is offered the building of the expedient is offered the building of the main road may encountered at depth. The long be delayed. Still it seems reasonable to suggest that tunnel is now in 1150 feet. The while the road is being built it would be a good thing to Timmins interests, who recently have a better arrepresent with the contract of purchased the mine in an importhave a better arrangement with the railway company ant deal will in future be in than at present exists. Forty dollars seems an unreason- charge, though F. T. Taylor re- appear between now and harvest able amount to have to pay for transporting a car. Fiftymore than the average car owner is able to pay. Forty five men are now employed at the
mine and it is hoped to start acthis city. Of this amount, the dollars is enough to pay for the gas and oil for the car tive production within two months this city. Of this amount the between here and Vancouver and also the meals for the Co-operation of the provincial greater proportion will be wheat. chaffeur if he is not an extravagant person.

THE ROAD AND NOTHING BUT THE ROAD

One Prince Rupert citizen in urging the carrying on large buildings are to be erected of the campaign suggests that our motto be "the road in connection with plans for inand nothing but the road." Also we are inclined to think creased development work. we should urge as forcefully as possible that the road go by the north bank of the Skeena River, because to ferry the Babine Bonanza Mining & across would about double the driving time between Milling Co. with the development ite. Prince Rupert and Terrace. However, we are not going and much good looking ore is be- Peace River territory produced to quarrel over that. What we need is a highway by the ing opened up, quite a lot being for export a total of 9,888,000 best and most expeditious route to Terrace and it is for engineers to decide which way it shall go.

THE MINISTER'S STATEMENT

We were particularly glad to hear from the Provin- from development work being carcial Government in regard to this matter and to know ried on there. John Willman of acres, while the total seeded to that they have the highway in mind. We were also mining engineer, are the moving ted at 1,650,000 acres. pleased to see that the acting minister of public works seems to be familiar with the situation and that his views in regard to it are given such prominence in a Vancouver capital newspaper. The flaw is that the only definite statement in regard to building is that "the bridge across Galloway ployed by the Britannia Mining Rapids is required in any case and it is planned to construct it as soon as possible." That is certainly something, diamond drill, is being pushed would be considerably in excess but it is something we thought we should have received ahead. this year. Terrace people also complain of unreasonable increased as development prodelay in connecting up their town with Hazelton and say at the present rate of construction it will take ten years to complete the work.

We are glad to know the minister recognizes the value of this highway from a tourist point of view and Prince Rupert people will, we are sure, be glad to co-operate in steel of the Dolly Varden Railway IMAGE OF ANCIENT any way in the forwarding of the work.

News of the Mines

AROUND PRINCE RUPERT

Thirteen Properties at Stewart Being Developed by Big Companies; Owen Lake Making Good Progress; So Is Cronin Mine

A total of thirteen properties in the Portland Canal district are now being developed by outside mining organizations. The Consolidated Mining & Smelting Co. has acquired control of six properties; the Premier company is working four; The Selukwe Co. of London, England, two; while the Revenue Mining Co. is operating one, the Independence. The Premier should have the Prosperity and Porter Idaho properties in production within the next three or four months, with the possibility of Silverado following shortly afterwards.

DOES "MODERN ART" APPEAL TO THE MASSES?

The tremendous interest of men and women today in art in all its forms has caused a known psychology professor to make the statement that the present so-called "modern art" peals to the masses because it is of them and for them. Above are some examples: Left, "Ad cent," sculpture by Sava Boxtari, young Servo-Greek artist, showing trend of modern art. Ab centre, is a striking black and white conception of an economic phase in the life of Russia drawn by Slavic artist. Inset, Pro . Wm. F. Marston, lecturer on psychology at Columbia Unit sity, who has made remarkable d scoveries about the latest "freak art." Right, is the artist zaris, with another of his modern works, "Portrait of Ernest Thesiger," a noted British actor.

The Working Man DLUTIP is the remarkable new workboot that has become popular in a few weeks throughout the entire West. It is a lighter boot, with a specially tanned sole. that wears twice as long as ordinarily. Blutip is a comfort to the feet and moderately priced. Easily identified by its sole tip colored blue and the Blutip trademark on the sole. Made entirely of Western Canadian hides and leathers tanned in the Leckie Tannery.
