CROP REPORTS

While the crop of wheat on the prairies is reported to A crew left Stewart recently to be poor, the crop of fish in this district is reported to be resume work on the Premier Exlarge. The former is rather discouraging, but the latter tension, which adjoins the Woodis very encouraging.

Last year it was thought that the Skeena River and controlled by Hugh B. McGuire. adjoining streams had all been fished out because there Considerable surface work has al- ernment officials turned down the dling facilities in Alberta, Sas- ley; "Story of the American was a poor crop of fish. At any rate, the catch was such ready been done in the property application to have the road com- katchewan, Manitoba and Ontario Indian" by Paul Radin; "Under as to make the people of the district keen on seeing that will now be further investigated. fic, declaring that there were a is vice-president and managing "The World After the Peace" the fishing was properly conserved.

Now it seems that conservation has been going on, but that some unusual conditions conspired to cause a poor year in 1928.

While there is so much talk about the grain crop on Co to send a government engineer done without delay, so that big Grain Company, Limited; Stewart the prairies, Prince Rupert does not broadcast sufficiently to the Woodbine to make a care- mining operations would not be Terminals Limited; The Union the bumper crop of fish this season here. Possibly we ful examination of the property held back, the Consolidated offer- Grain Company Limited; The do not talk about ourselves enough.

A VIRILE PEOPLE

In discussing the matter of diet the American Mercury holders, whose hopes have been of New York says: "When the American Revolution oc- raised recently by publication of curred a number of the English colonists chose to remain smelter returns on sample shiployal to the mother country, even though the maternal values of \$37.77 and \$33.96 to the care had been somewhat lacking in nourishment. Some ton. Meantime, preparations are of these colonists departed for Canada, while their cousins being made to send another ore migrated to the Bahamas. Both groups were of the same shipment to Trail to further test stock and their characteristics were then similar, but to- the possibilities of the property day a vast difference is observed in their descendants. The and it is reported that negotia-Canadians are an active, virile people whose mental alert- to securing the Riverside mill for ness is shown among other ways by the fact that they are handling of ore from the Woodmost emphatic in declaring, with sidelong glances at their bine. Arrangements have been friendly neighbor to the south, that they expect to be per- made for Boyle Bros. to carry out petually independent. The Bahamans are said to be dis- a diamond diffinity determine values. G. L. tinctly indolent and easy-going.

"Now this dissimilarity may be attributed to marked has commenced proceedings to reclimatic differences, and, in fact, it has been accounted for cover from J. B. Watson, former on that ground by Professor Ellsworth Huntington, the president, \$30,000 damages and geographer. On the other hand, Dr. McCollum calls at shares which it is contended tention to the fact that besides the cold and invigorating treasury. climate of Canada there is the more important feature that the Canadian diet is rich in milk, butter, cream and Dalby B. Morkill, B.C.L.S., cheese, in addition to cereals, legume seeds, tubers and and crew recently made a survey meats. The Bahamas in their enervating climate partake of the fifty odd claims of the of fruits and certain vegetables, but seldom use dairy American Creek Mining Co., on products. Dr. McCollum suggests that 'people will feel American Creek at Stewart. Since very different on these two types of diets."

BEST BAS!C INDUSTRY

(Alice Arm Herald)

The most prosperous of the basic industries of British Columbia is mining, and has been for the past two or three years. The future appears as bright as ever. The ex- been particuarly active of late pansion is proceeding along conservative lines, and no packing supplies into many Stew-hectic boom, such as was experienced in several compact art mining properties. Besides hectic boom, such as was experienced in several camps a the regular work for the Georgia decade or two ago is anticipated. Mining properties of River Gold Mining Co., Crawford merit are being taken over by big concerns as well as small packers recently transported a companies almost daily. No particular district is being diamond drilling outfit and supfavored. The expansion is going steadily on from the Alberta boundary to the west coast of Vancouver Island, and
from the southern boundary to the Vulcer border. White where Consolidated is drilling the from the southern boundary to the Yukon border. Mning Jancowski property which it bondcompanies seem more anxious to do business with the pros- ed last winter. Another job was pector than at any time in history. And will do unless the the taking in of an outfit for the price and terms of a prospect are prohibitive. If they are Bitter Creek Mining Co. as well the prospector keeps his prospect and the mining company as to the Red Top and George Copdoes business somewhere else does business somewhere-else.

GOES TO LONDON TO REPRESENT THIS PROVINCE Hon. T. G. Coventry of Victoria, B.C., and his wife, who resigned his seat in Victoria in favor of Premier Tolmie of British Columbia, has been named to act as market commissioner for the Coast Province in the British Isles. His duties will be separate from those of Hon. F. A. Pauline, British Columbia Commissioner for several years.
