The face he saw was distorted by the ravages of a horrible death, yet it showed traces of beauty. Suddenly as he looked, he started violently.

It was the same face he had seen inside the lid of Mr. Ferryman's watch.

In a moment Mr. Ferryman was at the cot. He stared down at the body. Then, with a long cry of horror, he fell headlong over the cot.

Tragedy had entered the tranquil, green-shuttered house which Alexander Ferryman had maintaned as a sanctuary for his errant wife. The pathos of the situation penetrated even Captain Summers' hard-grained fiber. For four years the husband had lived in hope and grief and faith, waiting hourly for her return, keeping fresh and intact the scenes of their brief married life in order that when she returned they would be able to resume as if there had been no interruption. And now she had come back, but only to meet with a horrible and mystifying death.

Everything was strupulously neat and clean, yet there was an atmosphere about the place that suggested long disuse. The intimate human touch and feeling had somehow vanished from the! furnishings. As Summers inspected the surroundings he recalled what Ferryman had told him! about certain mysterious things going on in the house. Judging by reports that are supposed to be authentic, Joe Wright and Jack Guest, former pals and clubmates, have reached the parting of the ways, something that could only be expected, with the rivalry between the pair getting keener every day. Argonaut officials have nothing official to say about the matter. They know the sterling qualities of both scullers, and they are proud to have them wear the old Double Blue colors, but the friction that has crept in since Joe Wright was named as Canada's Olympic representative last seaison without holding a trial race has been apparent.
