DAILY EDITION

UNITE ON THE ROAD

Liberals and Conservatives have everything in common when it comes to advancing the interests of Prince Rupert or any part of the northern district. Nothing should be allowed to stand in the way. Just now we urge Liberals to unite with local Conservatives in doing their best to secure the pushing forward of work on the road.

Had there been a choice as to which route it should take, we have always favored that along the river to connect with the canneries. If, however, it is found to cost more than the other and that to go would be likely to hold the work back, we say "Let us have the road, no matter, what the route."

FINE YOUNG PEOPLE

Prince Rupert is raising a fine lit of young people, cildas, night a delegation of resiboys and girls who are destined to make names for them- dents across Hays Creek asked the selves. On Saturday evening one of these distinguished city for improvements in that sechimself in the matter of oratory. Others will become prom- tion of the city. Particularly, they inent in other directions. Anyone who sees these young people growing up and knows anything of them, knows that many of them have plenty of ability. With strong dock, for the grading of Seventh bodies and active brains they ought to do great things.

LAST GREAT RESERVE

Much ado is made in United States over the battle for Lead. control of the last great United States timber reserve in George Casey, introduced by the Olympic peninsula. There is an estimated stand of something like twenty-five billion feet which is at present untouched. The timber is very fine spruce, cedar, fir and hemlock.

We are not concerned as to the outcome of the battle, ent they had no access to the water but simply interested to know that this is practically the without going down town. They last stand of untouched timber in the state of Washington, jor industries of the city-Cold if not in all the United States. British Columbia timber Storage plant, the Big Bay lumber is bound to be greatly in demand in future and must be mill and drydock. The proposed carefully conserved. It must also be mentioned that con- road had already been looked servation does not come from keeping uncut, overripe over by some of the alderman. It stands of timber that should have been logged years ago. The whole timber is one for careful scientific study follow- service to the whole community. ed by vigorous action.

ADVERTISING LITERATURE

The federal department of the interior has just was built. brought out a booklet designed for advertising the country A. H. McLeod said he had lived among American tourists, which is a very attractive pub- scross the crock for 17 years and lication and should be useful. It is particularly well il- had paid taxes all the time. Other lustrated with pen and ink sketches. It is called "Vacations in Canada," a handbook of information for tourists CANADIAN NOMINEE FOR and sportsmen. Regulations for sportsmen and touring notorists are included at the end.

CONGRATULATIONS

Congratulations to Conductor Brocklesby on the excellent work of the Prince Rupert Singers. There was general approval from all who attended at the Capitol Theatre last evening. If this is the beginning of a movement leading to a musical festival it is along right lines.

WHAT WOULD BE THE BEST MEANS TO ADVANCE INTERESTS OF NORTHERN AND CENTRAL B. C.? PRIZES ARE OFFERED

The Daily News invites suggestions as to the best means of advancing the interests of northern and central British Columbia. As a recognition of our interest in the subject, we offer three prizes for the best suggestions put forward in a brief newspaper article not to exceed 500 words. First prize, \$5; second prize, a year's subscription to The Daily News; and, third, six months' subscription to the paper.

A school boy or school girl is just as likely to win the prize for this as is a grownup. Write on one side of the paper only and mail addressed: Contest Editor, The Dairy News, Prince Rupert, B.C.

CAN HEALTH BE MEASURED

A question asked by a Canadian

One of Winnipeg's prominent citizens (name if requested) wrote us asking if he could procure ALL-BRAN in Liverpool and other posed carrying enough with him to cover his proposed trip abroad.

million dollars and ALL-BRAN, letter he would "much rather do ands of other Canadians, he realizes that Kellogg's ALL-BRAN is a necessity to health.

Many people do not know they have constipation, and accept fatigue and depression as a part of life until they try Kellogg's ALL-BRAN; then they, too, would rather "do without a million" than lose their new energy and keenness of enjoyment.

Kellogg's ALL-BRAN is guaranteed to relieve constipation. Eat two tablespoonfuls daily; in chronic cases that amount with each meal. Try delicious recipes on package. Made in London, Canada, and sold at all dealers.

IMPROVEMENTS

Residents Across Hays Creek Want Better Access to Waterfront

At the meeting of the city counasked for a road connecting either Ambrose Avenue or Sixth Avenue with the waterfront at the dry-Avenue and a cross street connecting Sixth Avenue and Eighth. The delegation consisted of George Casey. Miss Durran, A. H. McLeod, Ross Mackay and Jarvis Mc-

> Alderman Macdonald, outlined what the delegation came for. He said he thought the time was overdue when an outlet to the waterfront should be provided. At preshad in that section the three mapresented no particular engineering difficulties and would prove of

Miss Durran asked for justice for Seventh Ayenue. All the residents wanted it. She spoke of the cost of delivering coal at present which would be lower if the road

BRITISH HOUSE

Mr. Sigmund Samuel, President of the firm of Samuel & Benjamin, Limited, Toronto, has received the Conservative nomination for the Lichfield, Staffordshire, seat in the British House of Commons. He is a pronounced Imperialist and is interested in solving the unemployment problem. If elected, Mr. Samuels will make his home permanently in England.

portions of the city had been looked after before themselves. He thought it was time Seventh Avenue was put through.

Jarvis McLeod said he was interested in a road to the waterfront. Residents in that part of the city were handicapped because of the cost of coal and supplies. The work could be done economically while the equipment was on Ambrose Avenue.

The mayor promised the delegation earnest consideration.

Alderman Collart moved that the matters be referred to the board of works and that an estimate be prepared of the cost of the road to the waterfront.

Alderman Macdonald said he had visited the site and thought the road should be built. It would help the fishing industry if the floats were built at that point.

Alderman Brown thought the road should be built from Sixth Avenue to the drydock, but there was no money in the estimates to provide for it. He pointed out to the delegation that when people said the district got nothing, the road to Sanl Cove and Eleventh Avenue had been built out of general fund. There were many vacant lots in the district and on some of these the taxes had not been naid. If the fish floats went through, he thought the road would be needed, but otherwise it would need further consideration.

J. Morrison said he felt sure! the fleats would be built near the develock. He could not see any other possible site. The recolution referring the

matter to the heard of works was than carried and the delegation re-

Ruby, Calgary, Alberta, President and General Manager formerly Vice-President and General Manager Hudson's Bay Marland Oil Co., Chief Geologist Rocky Mountain Division Empire Gas and Fuel Co., Chief Geologist Marland Oil Co. of Colorado and Geological Department, United States Geological Survey.

C. G. Willis, Los Angeles, California, Managing Director of United States properties; consulting geologist and engineer, formerly chief assistant to Director in charge of Geology and Research of Marland Oil Companies, formerly geologist Associated Oil Co., Director St. Louis Royalty Co.

Samuel R. Smith, Vancouver, B.C., Vice-President and Assistant General Manager; oil operator, formerly chief of Land Department, Hudson's Bay Marland Oil Co.

Robert S. Moran, Los Angeles, California, Consulting Geologist and Engineer; formerly Geologist Standard Oil Co. of California.

Assistant General Manager Granby Consolidated Mining, Smelting and Power Co., General Superintendent United Verde Extension Mining Co.

NORDON CORPORATION LIMITED is a Canadian company, acquiring the property of Nordon Corporation and other va mable oil leases and royalties, deriving substantial present income from existing oil fields of the United States, directed by technical and practical talent of the highest order, which will largely devote its efforts to development of oil in the fields of Western Canada Nordon Corporation had its inception early in 1928, to acquire exceptional opportunities in various oil districts of Canada and the United States, under the guidance of Mr. C. G. Willis and associates.

PROPERTY HOLDINGS :- Leases o 24,000 acres and royalty under 76,800 acres on seventeen distinct oil areas of the United States, and 10,000 acres in prospective valuable areas in Western Canada. United States royalty interests include portion of landowner's royalty in one of the finest leases in the Santa Fe Springs field of California. Five wells have here been completed to recently discovered deep and very prolific sands, and thirteen more wells are drilling on the company's royalty acreage. In New Mexico, company owns royalty under 70,000 acres, in the latest producing oil ar a in the United States. In Texas, the latest major producing field in the United States, company owns leases on 7,500 acres in Midland county, part of which is now being drilled on acreage-division bas's by some of the larger operating companies of the industry leas s on 2,500 acres in Crockett county, where 2,500 checkerboarded acres, transferred on acreage-division basis, is being drilled by Marland Oil Co. and W. A. Moncrieff, and where within the past few days one well reached the sands and was bailing at the rate of 288 barre's daily, with prospects that a big producer would be brought in: leases on 960 acres in Pecos county, on the Fort Stockton "high"; and leases on 1,000 acres in Ward county on the Soda Lake structure. In Oklahoma, one-half of royalty under 160 acres on top of a large core-drill structure in the Wilcox sand area, where Marland Oil Co. owns the leases on Nordon royalty acreage. In Kansas, acreage in the vicinity of the recent discovery just north of Wichita, Central Kansas. In Ohio leases on 80 acres in eastern part of state, where a well within one mile has just come in with yield of 100 barrels of high-gravity Pennsylvania crude. Other royalties and leases are under option or negotiation in Santa Fe Springs field and in other fields in Texas and New Mexico.

PRESENT REVENUES :- Royalty revenue from five wells in Santa Fe Springs field will presently be at rate of \$300,000 per annum, and rate is expected to reach \$500,000 per annum before the end of this year, as thirteen more wells are being drilled on royalty leases. Further revenues are expected from Texas and New Mexico fields from wells now drilling.

FINANCES:--- Upon completion of this present financing the company will have in excess of \$1,100,000 in its treasury.

INTENSIVE CANADIAN OPERATIONS:-The imme-·nate objective of the Corporation is large expansion of its operations in the prospective fields of Western Canada, where its staff, in possession of valuable geological data, believes some of the most important structures on the continent may be developed.

PRINCIPLES OF OPERATIONS: - The principles which have been and will be followed by the Corporation in building up revenues necessary for execution of its policies, used with marked success by the great royalty companies of the United States, will be rigidly adhered to, thus eliminating, in largest measure, drilling operations-the most costly and most hazardous branch of the industry. Leases and royalties will be negotiated over a wide spread, thus minimizing hazard of loss and increasing the chances of big

The Corporation is not a drilling company and will confine its operations in that direction solely to offset drilling where such operations are imperatively demanded in protection of its holdings.

PERSONNEL:-The standing of the directors of Nordon Corporation is of the highest order. President and General Manager Glen M. Ruby is acknowledged to be the outstanding authority upon the prospective fields of Western Canada, with the widest experience in continental oil affairs. Managing Director C. G. Willis stands equally high in the Southwest and is generally accorded a portion of the credit for discovery of several of the important fields in the Los Angeles Basin. From time to time, announcements will be made regarding the personnel of a Board of Consultants, which will include oil experts of continental and international reputation.

Application will be made for listing on Eastern and Western Stock Exchanges. Literature, with halftones and maps, containing further details, gladly furnished upon request.
