EMBARRASSING MOMENTS

Peacetime Patriotism

A Fable for Merchants and Salesmen

SHE was an insistent purchaser of local products. She knew the security of her home depended largely on herself, and all mothers like her—depended on their insistence of securing local products. For it was directly through the prosperity and increasing activity of local industry that the men folk of her country enjoyed secure positions and steady employment.

That is why, when shopping for an outer garment for her son, she demanded a local product. The store clerk hesitated and told her the article she required was out of stock at present, but that a certain foreign-made article was "just as good." She refused the foreign garment and left the store.

Back of this mother's insistence was a pride in the products of her homeland—the true peacetime patriotism.

This story has a moral for Merchants

The progress of British Columbia depends on increased production and increased purchasing of British Columbia products by the public. Be fair to yourself! Be loyal to British Columbia! Sell more British Columbia products.
