ADVANTAGE TO UNITED STATES

While there is so much talk of Canadianism and doing our part in the British Empire, there is still an advantage given to the American route over the Canadian by Canadian railroads. Grain can be shipped to U. S. Atlantic ports at a less rate per mile than to British Columbia ports and the result is that last year the United States ports handled no less than 46 per cent of the Canadian crop, whereas Vancouver and Prince Rupert combined handled only 28 per cent.

This is not a criticism of any particular railway. The rates are set by the railway board and they discriminate against Prince Rupert and Vancouver.

When on the prairies recently some inquiries were made in regard to why grain went east instead of west. It was shown that better prices could be secured by the eastern than the western route. Part at least of this was the result of the discriminatory railway rates against the west. Through the efforts of the late John Oliver and others, a great part of the differential against B. C. ports was removed, but there is still a difference sufficient to turn the flow of grain eastward instead of westward. A movement is on foot now to secure the removal of this differential and until it is removed the western ports will not be satisfied.

It is particularly galling to see grain going out by the United States seaboard when Pacific ports are idle, largely because of the fact that the railway board still refuses to recognize the justice of the claims of the west over the east.

VISIT OF CHARLES W. FREDERICK

The visit of Charles W. Frederick to Prince Rupert at the beginning of the week may become an important event. During the visit of Prince Rupert delegates to the town of Peace River a conference was held with a number of friends of this port. All were eager to talk matters over and a suggestion was made that there might be formed a Peace River-Prince Rupert council to work for the mutual benefit of both cities. This was left in abeyance, it being thought by some that close co-operation with frequent inter-communication would bring about the desired result.

Mr. Frederick is the first man to come here as an ambassador of trade and good will. He paves the way for others. The better we get to know the people of Peace River the better it will be for this port.

FUTURE OF STEWART

Stewart is still only a mining town, but it has aspirations to become a port and its aspirations are well founded. In the first place, it will be the port of shipment for the George Copper and many other mines and for the Bowser Lake country. Beyond that and eastward is the Groundhog coal country and still farther east and north an immense grain growing country that will have to send its product to the Pacific.

Prince Rupert expects to become an important port and there is no reason why Stewart should not also develop along similar lines. There is much in common between the two places and Prince Rupert people are looking to see the Portland Canal port grow rapidly in the near future.

True greatness consists in having a proper publicity agent.

Mrs. Dawson Was Speaker to Girls

C. G. I. T. of First Presbyterian Church Heard Interesting Story of Trip to Europe

The Canadian Girls in Training of First Presbyterian Church last night heard a very interesting talk by Mrs. F. G. Dawson, whose subject was "A Travelogue of Europe." Mrs. Dawson, with some witticisms regarding seasickness, described the voyage across the Atlantic Ocean, then took her hearers to London and other points of interest in the old land, and thence to Paris, Switzerland, Austria, Italy and Venice. The talk proved educational as well as being witty and pleasing.

A hearty vote of thanks to Mrs. Dawson was proposed by Ann Kirkendall, seconded by Winnifred Eby, and passed with enthusiasm. Muriel Vance, president of the C. G. I. T., occupied the chair.

Local Items

Ernest H. Pierce appeared in city police court this morning on a charge of drunkenness and, pleading not guilty, was remanded until this afternoon.

Mrs. C. W. Dawson of Hazelton arrived in the city from Vancouver on the Prince George this morning and proceeded to the interior by train.

Ralph Smith, who recently motored from Telkwa to Vancouver, returned to the city from the south on the Prince George this morning.

Frank Sheppard, C.N.R. travelling auditor, arrived in the city from Vancouver on the Prince George this morning, being here on official duties.

Miss L. M. Ellett, who has been spending her annual vacation in Vancouver and Victoria, returned to the city from the south on the Prince George this morning.

Calvin Beck, mate of the tug Lornet, arrived from the south yesterday after a rough trip up the coast. This is Cal's fourth trip to Prince Rupert. He is returning south tonight.

Chas. W. Frederick of the Peace River district will speak at a public meeting in the City Council Chamber, Monday evening at 8 o'clock. Turn out and give him an enthusiastic reception.

A. M. Johnson K.C. arrived in the city on the Prince George this morning from Vancouver to act as crown prosecutor at the session of the Supreme Court Assizes here next week.

Ald. Theo Collart, who returned home via Vancouver after attending the recent Canadian Chamber of Commerce convention at Edmonton and Calgary, arrived from the south on the Prince George this morning.

Believing Capt. Harry Nedden, who underwent a successful operation in Vancouver on Wednesday, Capt. Neil McLean came north as "kipper" of the steamer Prince George today. Capt. E. Mabbs is now in command of the Prince Charles while Capt. W. Thomas, chief officer of the Prince Charles is acting as master of the Prince John which is now engaged in tramp freighting.

Auto Licenses Issued In Alberta 92,000

EDMONTON, Sept. 21.—The province of Alberta issued 92,000 automobile licences this year so far and 128,800 drivers have secured licenses. The rate of increase is less than half what it was last year.

PREMIER DANCE GREAT SUCCESS

Three Hundred Persons Attended Affair Last Night in Moose Hall

The opening dance of the season by the Premier orchestra of ten pieces was held last night in the Moose Hall and the event proved a great success. Three hundred persons were in attendance and had a wonderful time from 9 p.m. until 2:15, being loath even then to wend their way homewards.

The hall was given an attractive effect by means of a revolving crystal upon which a spotlight was played. The crystal was of diamond shape, composed of two hundred mirrors, rays from which were reflected to every corner in the hall. The balloon shoot was also effective, being released at midnight with the shot of a pistol and the pulling of a string. Walter Howarth, chairman of the orchestra, was responsible for the decorations.

Jack Mair acted as master of ceremonies and kept the proceedings moving with enjoyment to all. I. Fennessy and A. G. Bartlett presided at the door. Serving of delicious refreshments was supervised by Mrs. Percy Cameron.
