INTERNATIONAL TRADES UNION MEETING IS NOT EXACTLY A LOVE FEAST

MUTUAL RECRIMINATIONS FROM REPRESENTATIVES OF THE DIFFERENT NATIONALITIES AT PRELIMINARY GATHERING AT AMSTERDAM—GERMANS THOUGHT DEFENSIVE WAR

(Special to The News via G. T. P. Telegraphs.)

Amsterdam, July 29.—The preliminary gathering of the International Trades Union Congress developed a series of accusations by delegates from Belgium, United States, England and France against German workers for their conduct during the war. There were sharp recriminations on both sides.

The meeting was held for the purpose of clearing up the affairs of the old trades union international and making preparations for the new organization.

Carl Rudolph Legin, president of the German Federation of Trades Unions, defended the entire policy of the German trades unionists which he said had been absolutely correct, and declared their position prevented their protesting to the government. Moreover, all the time they were under the impression that they were fighting a defensive war.

CHINAMAN GOES UP FOR TRIAL

Committed for Trial on Charge of Stealing Shoes From Store.

In the provincial police court yesterday afternoon was heard the preliminary hearing of the case of Joe You, a Chinaman, charged with stealing shoes from the store of Mr. McArthur. Magistrate McMullin was on the bench.

The chief evidence was furnished by G. Gray of Sunnyside, who attested that he had gone over to the shack of the accused and after fitting on several pairs had at last decided upon two pairs and these he took away with him. While he was there he noticed that there were three odd shoes among the lot, similar to the three produced in court. The Chinaman had been away from the cannery from June 29 to July 4.

Constable Bailey told of how he found the accused and the boots in an old sack up at the Chinaman's cabin near Sunnyside. Mr. McArthur identified the shoes as being his.

An interpreter was necessary in the case as the accused seemed to be unable to speak very much English. The magistrate found that there was sufficient evidence to commit the Chinaman for trial in a higher court.

This morning the accused appeared before Judge Young at 11 o'clock in the County Court and elected for a speedy trial. The charge was read to the prisoner, who pleaded guilty. A remand was made until next Monday, when sentence will be pronounced.

(Special to The News via G. T. P. Telegraphs.)

Washington, July 29.—The ability of Swift, Armour, Norris, Gudahy and Wilson to determine from day to day the general level of livestock prices, was declared incontrovertibly in the third section of the Federal Trade Commission's report on industry, which was made public last night.

ANCIENT RELIC KEEPS ALL GUESSING

An interesting relic of ancient times has recently been discovered near the Indian village of Kispiox, about nine miles from Hazelton. During road-making operations the workmen unearthed a sandstone tablet, curiously carved on one surface. It was lying under about three feet of gravel, and as the country there is heavily timbered the stone must have lain there for centuries. The Indians are unable to trace any resemblance in the figures on the stone to any known totem.

The fact that the B. C. Indians are not given to carving in stone, confining their efforts almost entirely to wood, leads to the assumption that the tablet is an indication of the existence of a race which inhabited the country prior to the coming of the Siwash.
