SPRAYS FOR FRUITS

Pears, plums and bloom early and should have prevantative sprays directed against + HOW TO PREVENT nsects and diseases which establish themselves almost when the first buds swell. Apples, also, need a course of spraying for the same reason, though they bloom later and their spray program extends into June.

There are three sprays applicable in general to all fruits above named: 1. Bud spray, just before flower buds open. 2. Calyx spray, just after petals fall. 3. When fruit is set, about two weeks later. A spray mixture on the basis of one-fifth pint limesulphur concentrate, two-thirds ounce arsenate of lead paste and one gallon of water, may be used for all three sprays. This known as a "summer strength mixture." If powdered arsenate is used, only one-third ounce needed.

Aphis is controlled by lead arsenate or nicotine sprays. Currents and gooseberries should be sprayed just before leaves develop fully, with lead arsenate, twothirds ounce paste or one-third, ounce powder to a gallon of water. This is a preventative against

One teaspoon commercial nicotine, such as Black Leaf 40, to one gallon of water, is sufficient for aphids. Add about an ounce of soap to soften water and spread the spray.

A FEW FACTS ABOUT PRINCE RUPERT

Prince Rupert is:

The terminus of the Canadian National Railway.

The Central administrative point for the whole of central and northern British Columbia.

The nearest point in British Columbia to the Orient.

The centre of the halibut and salmon fishing business.

The centre of an extensive mining and lumbering district.

Prince Rupert has:

One of the finest harbors in the world. The largest fresh halibut business in the world.

The largest fish cold storage plant in the world. A large, strictly modern drydock and shipbuilding plant.

A grain elevator leased to the Alberta Wheat Pool with capacity of 1,250,000 bushels.

A large, modern ocean dock.

A new modern lumber mill, planing and shingle mills and box factory with capacity output of 60,000 board feet daily. Fish reduction plant.

A new mill at Porpoise Harbor and another building alongside it seven miles from the city.

Railway shops employing about 75 men.

Several ship sheds for building and repairing small craft. Provincial government district offices and court house. Dominion government fisheries, customs, and other offices.

Marine department central station. Dominion government wireless station.

Canadian National district offices.

Dominion fisheries experimental station. B. C. Packers district offices.

Consolidated Mining & Smelting district assay office.

P. Burns Co., Ltd., modern abattoir. Several docks and wharves used by coasting vessels.

Number of fish houses doing an export business.

About twenty salmon canneries in the neighborhood. Several fishery supply and shipchandlery establishments. Several wholesale houses doing a large business in the dis-

Fine modern retail stores.

Good steamship services to Alaska and south to Vancouver and Victoria and west to the Queen Charlotte Islands. Three large oil and gasoline distribution stations. Good hotels and restaurants.

Prince Rupert has:

Modern high school with first year university classes Four public schools with over thirty teachers. Seven churches representing the most important demonina-

Paved streets and concrete sidewalks in the business section. Well kept gardens and pretty residences.

Number of clubs and fraternal organizations.

Prince Rupert has:

No severe cold in winter.

No extreme heat in summer.

No mosquitos or other insect pests. Great opportunities for boating, fishing and hunting.
