REPARATIONS SETTLEMENT

The settlement of the reparations dispute took a long time, but it has proved another success in diplomacy and especially is a feather in the cap of the Labor Government of Great Britain. Not only does that country get a greater share of the money, but it also gets the supplying of a Ocean Falls-Prince Rupert series million tons of coal a year to Italy that will keep the yesterday afternoon, the locals will be played at 6 o'clock to-Britsh miners working.

Commanding General Says Bugs Will be Wiped Out By Fall

"Our FLY-TOX sprayers are the greatest menace to the insect army ever devised by science," declared General "Tox" in a recent interview while resting after the big spring offensive against the insect army.

General "Tox" has been in personal command of the FLY-TOX offensive since it began this year, and he declared that his much-needed rest was made possible by the fact that housewives all over the country have come to his aid and can now wield a FLY-TOX sprayer as well as his best troops.

The insect army is fast being depleted to such an extent that the only resistance now is from guerilla bands of insect warriors. General "Tox" declares that by Fall the entire international insect forces will be wiped out.
