down on the Melvin Mining Co.'s property adjoining the Prosperity and Porter-Idaho on Marmot River because of the fact that very loose ground was encountered in the tunnel, not sufficient timber having been taken in to block it up. The season's work, which included surface prospecting and tunneling, disclosed very encouraging conditions on the property. The tunnel was extended 170 feet, in the driving of which two shoots of highgrade ore were encountered but in tsuch a way as to indicate that the tunnel was passing just through their apex. When the shutdown became necessary, the tunnel was facing in ore of similar character to that in the first shoot from which six tons were extracted and sorted in the course of driving the well over 200 ounces in silver. The shipment is being forwarded to the Selby smelter in California.

in preparatory to continuing an ac- tempt at production will be made. tive program of winter's work on During the past year the federal the Mountain Boy property in the department of public works has Bear River section at Stewart. De- done a good deal of work to imvelopment of the property has been proceeding systematically and the River so, in future, supplies for plans for the winter outline a program to gain great depth, while ore bodies already indicated will be further opened up. No. 4 tunnel, started as a cross cut, will reach the intersection of the Mann vein and the high-grade vein at a depth of 400 feet. Here the drift will be swung to the right and the highgrade vein followed, the present program calling for this drift to be continued until a depth of 1200 feet is secured. In about three weeks an upraise will be made to connect the old Mann tunnel, thus providing a passage way for tools and powder and also a manway free from the danger of snowslides. When the upraise has been finished it is the intention of the management to let a contract for 2000 feet of tunneling or drifting which it is expected will be completed next May. Most of the money for extensive work being carried out on the Mountain Boy has come from Montreal.

After the first season of development, the Bi-Metallic Syndicate has suspended operations for the year on the group of claims it owns on the south side of Marmot River. The management is well satisfied were many cases of truancy. Frank Patrick, crafty manager the family, the substantial sum of the champions, reported for duty. Bill spent the summer in

Patrick' was so pleased to see Phillips that he immediately appointed Bill skipper of the team. He succeeds Art Somers, star centre ice player of the Lions last season, who is trying out with the Chicago Black Hawks, Even although Somers was captain last season. Phillips did a deal of the work that should fall choulders of the skipper.

National Hockey League heads are feeling satisfied with the changes in the rules. They believe that the new rules, which were calculated to speed up play and result in more goals being scored. are satisfying the public. It was with due deliberation that the rule-makers accepted almost wholly the Patrick idea of the winter pastime. They had been criticized most freely in the past, the absence of goals being the main issue in dispute, and so they took a desperate step that may bring the desired results. In the past it was possible for mediocre teams to hold opponents to 1-to-0 and 0to-0 scores. It is not likely that 'his will happen again.

The NEW 500 Colgate Toothbrush

(Designed by Colgate Department of Dental Education)

GIVEN AWAY

to each purchaser of

Two 25c Tubes of Colgate Ribbon Dental Cream

THE OFFER: To induce still more people to try Ribbon Dental Cream . . . we make this remarkable offer. Only Colgate ... world's largest maker of tooth paste . . . could finance such a proposition.

There is no "catch" to this offer. Colgate simply wants you to try Ribbon Dental Cream. To repay you for doing this, we offer you a genuine new Colgate Toothbrush...value 50 cents... ABSOLUTELY FREE!

superior cleansing power.

enamel safely, brilliantly,

The brush

This toothbrush - the newest, most advanced type known to dental sciencewas designed by the Colgate Department of Dental Education ... a group of dentists who have studied the needs of thousands of men, women and children.

Examine this brush. Study its shape, its size, its bristles. It is made by skilled workers . . . under the most sanitary conditions . . . from selected, imported snowwhite bristles of finest quality. Every brush is carefully inspected. Handles are of lovely, transparent material, in 5 exquisite shades of green, purple, amber. Bristles are inset by a unique process that holds them in a vise-like grip.

This brush is identical in quality, in size, in durability to nationally advertised brushes that sell regularly in better stores at 50 cents. Now yours FREE with this unique offer.

The dentifrice

Colgate's Ribbon Dental Cream is the world's largest-selling tooth paste. More people use it ... and more dentists recommend it ... than any other dentifrice.

The reason for this is simply that Colgate's cleans teeth better. Colgate's contains the world's best cleansing agentpenetrating foam that cleanses where the toothbrush cannot reach.

Your dentist will tell you that decay doesn't start on the smooth outer surfaces of the teeth ... but in the tiny crevices where food particles and mucin collect. No ordinary toothbrush can reach these

hard-to-clean places. They must be cleansed by the dentifrice. Hence the real test of a tooth paste is its ability to get down into these crevices

and cleanse them thoroughly. A recent

scientific test proved that Colgate's has a
