Glen Hyde was about thirty

years of age and went to school in Prince Rupert in the early days. Besides his father, there was an older sister, Edna, and a younger, Jean. All formerly resided here and the unfortunate young man was here two years ago this winter when his father erected two new houses at the corner of Fifth Avenue and Bowser Street.

CANADA'S 1928 Export Sales Review Canada Enters 1929 with Hopes Well Grounded

TO-DAY the great race among the aggressive nations of the world is for export trade. What is Canada's position in this far-flung competition? Though ranking 28th in population, this New Year finds Canada: Fifth in total exports Third in absolute trade balance Second in per capita exports First in per capita trade balance

- 3. Pack in the manner the importer desires. 4. Deliver promptly. 5. Maintain contract dates.

Additions have been made to Trade Commissioners' staffs. Trade enquiries and trade trends from abroad have been given wide publicity in Canada. Canadian products, displayed prominently at numerous exhibitions in Great Britain, have excited unusual interest. Buyers in other countries have been shown what Canada has to sell.

Steamship services from Canada to foreign lands, particularly to South America and the British West Indies, have been greatly augmented.

THE RESULTS ARE BECOMING CONSPICUOUS.

Again the Department of Trade and Commerce wishes to emphasize the importance of export trade to the prosperity of this country:

- 1. It stabilizes employment. 2. It lowers production costs. 3. It keeps our dollar at par.

Includes Argentina, Australia, Belgium, Brazil, British West Indies, Cuba, China, France, Germany, Holland, India and Ceylon, Irish Free State, Italy, Japan, Mexico, Netherlands, East Indies, New Zealand, South Africa, United Kingdom, and United States.

Canada now has 25 Trade Commissioners' offices abroad. Men trained in the Commercial Intelligence Service have headquarters in these offices. They are acquainted with the requirements of the people in their territory. They will conduct preliminary surveys regarding the marketability of any Canadian product. They will put the Canadian exporter into touch with reliable representatives, or introduce his travellers to reputable trade houses. They constantly help in maintaining business contacts. These Trade Commissioners communicate the latest trade developments in their fields to the Commercial Intelligence Service of this Department. The information they gather is at the disposal of every Canadian exporter or every Canadian interested in export trade. Write to-day to the Commercial Intelligence Service, Ottawa, about your products and your capacity to participate in export trade. A big opportunity may be yours.
