DAILY EDITION Tuesday, March 19, 1929

CLOSING THE PORT

On Saturday The Daily News published a summary of the budget made by Prince Rupert's member, J. C. Brady, in the house of commons, the only report to be published here. This report came on the regular Canadian Press news service and was given the premier position in the paper as being the most important news of the day.

The part of the speech which proved of greatest interest in this office was that in which he mentioned the facilities granted the American fishing boats in shipping their fish in bond to the United States. A public meeting a few years ago in Prince Rupert asked that this privilege be rescinded and from the trend of the remarks of the member it was gathered that he took the side of the halibut fishermen in the house. It seems that this was not correct, for a telegram has been received in the city stating that Mr. Brady is not in favor of shutting out American fishermen from the use of the port and did not advocate it in his speech. The Canadian Press report received by The Daily News and published on Saturday in The Daily News only in which he arraigned the government was in part as follows:

"The present government was giving a bonus to the United States against the very spirit of the words of the minister of finance. The United States government worked indefatigably and justly for the good of the nation it governed, Mr. Brady said. Its desire to give an account to all the branches of its industry and assist them in their competition was instanced in the Pacific coast fishing situation. Entry of the United States halibut vessels into Prince Rupert was allowed and fishermen land 14,000,000 pounds of halibut of a 23,000,000-pound halibut catch and ship it free of duty to the United States. Canadian fish paid duty on entering United States ports. Yet the government members had balked at the suggestion of retaliation against the United States tariff. It was not a case of retaliation, but of self-preservation, Mr. Brady said, to assist by legislation home industries."

DAILY NEWS REPORTS

The Daily News makes an effort to give its readers as complete reports as possible of important events and a budget speech of the local member was not anything to be omitted. It mattered not to us whether it favored our own views or opposed them. As mentioned before, this was the only paper to give the report of Mr. Brady's speech. Later it may filter through into others. We shall endeavor to continue to give as much news as possible and as impartially as possible. We are told that Mr. Brady will be in the city soon and will hold a public meeting. On that occasion we shall give as full a report as possible, consistent with allowing space for other news of the day. It is important that the people of Skeena district know as nearly as possible what their member is doing and saying.

A BLAST UPON THE PIPE

The Plumber: "That tool Salesmanship is what's wanted for this 'ere bust. . . . Go and fetch it Bill."

(The Prince of Wales, in connection with the British Industries Fair, recently opened, strongly advocated more up-to-date methods of salesmanship by British manufacturers.)

The Omineca Ski Club is planning to build a ski jump which will be one of the best in British Columbia.

W. E. Funnell has left for Prince Rupert where he intends to locate. He will be joined there

in a few weeks' time by Mrs. Funnell and family.

Robert W. McGowan, principal of the public school, has received the appointment of stipendiary magistrate here.

There was a large attendance at a St. Patrick's Dance which was held here on Saturday night.

UNITED CHURCH YOUNG PEOPLE HOLD MEETING

Gathering Last Night at Home of Mrs. T. Ross; Paper by Bronson Hunt

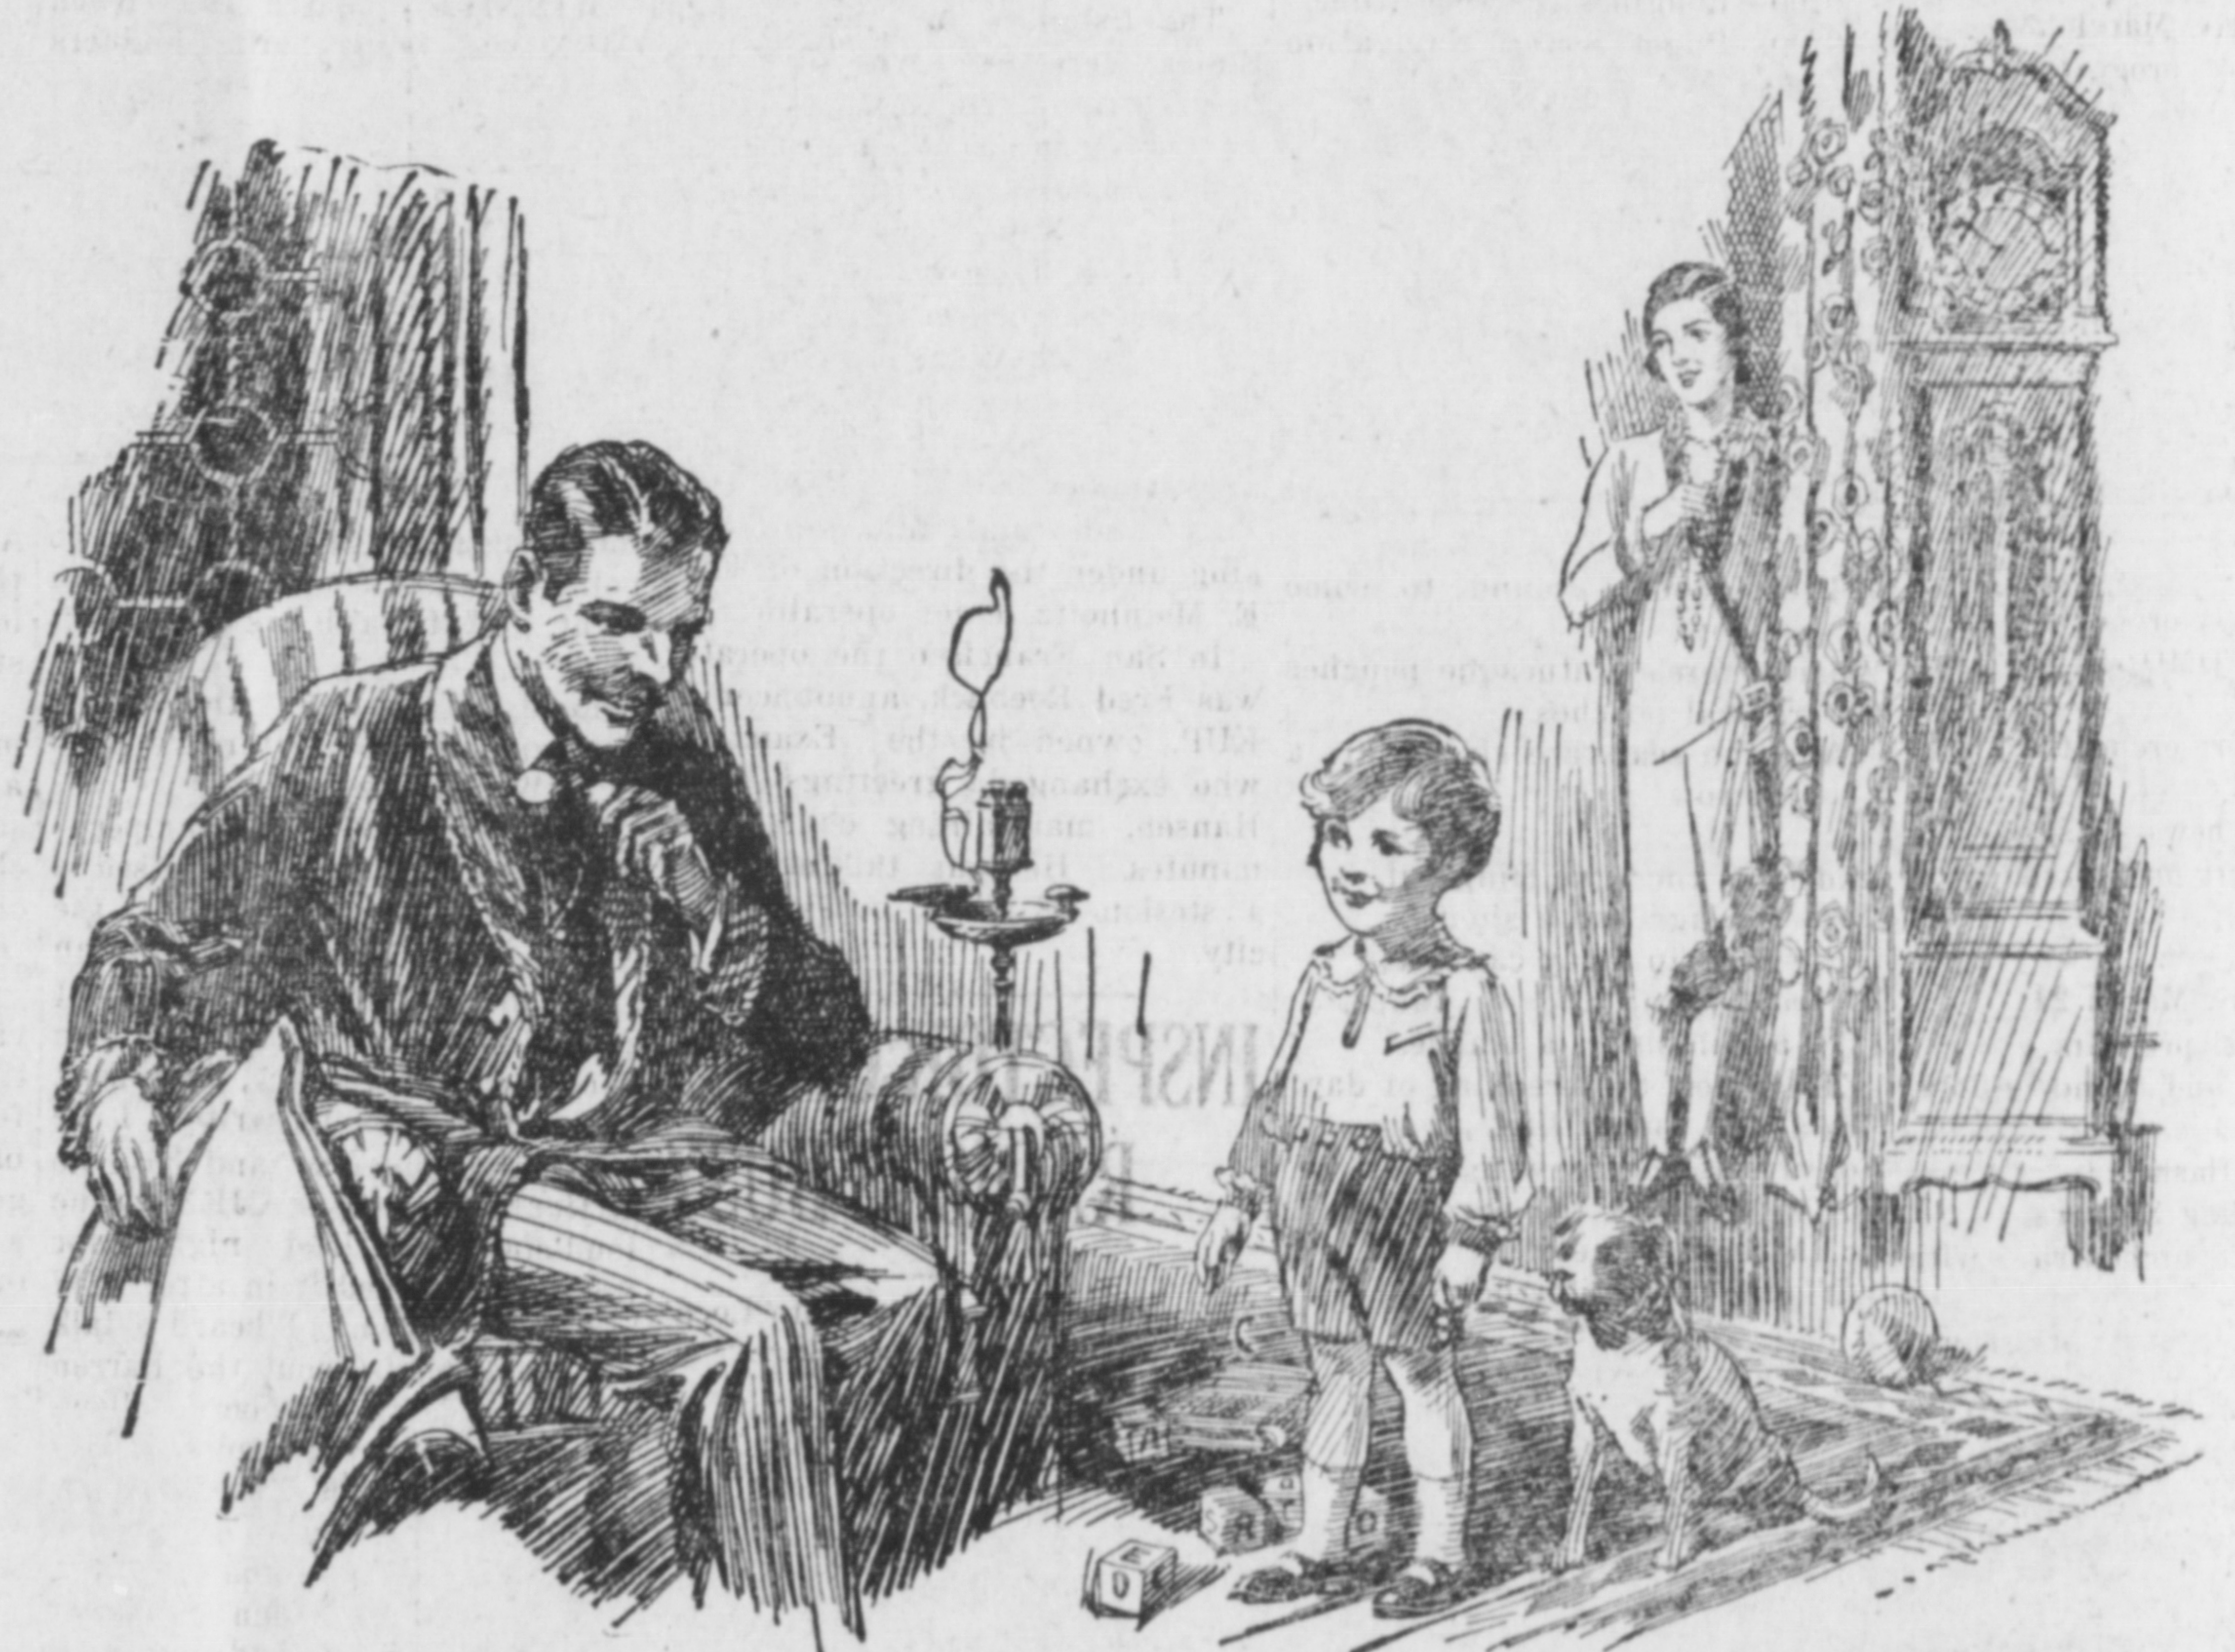

The Young People's Society of First United Church held its regular weekly meeting last night at the home of Mrs. Thomas H. Ross, Fifth Avenue West. George H. Stocks, president of the society, occupied the chair and the feature of the proceedings was an interesting paper by Bronson Hunt on the paper-making industry.

Games and contests were enjoyed and dainty refreshments were served by the hostess, who was assisted by Miss Phyllis Lamb. There was a large attendance.

RETIRES

Lieut.-Col. T. G. Loggie, MSc., I.S.O., who retired from the position of Deputy Minister of Lands and Mines in 1925 after 54 years in the New Brunswick Government service, had his long public service recognized in the 68th annual report of the Department of Lands and Mines, which was tabled in the Legislature last week.

The Greatest Man in the World

TO those dear to you, you are the greatest man in the world . . . the wisest and the most far-sighted. They trust you to protect them from hardship and privation. And to the best of your ability you would do so.

Yet there may come a day when you will no longer be here to shield them . . . to provide for their needs. Will their faith in you then be justified?

You realize that their confidence challenges you to greater vigilance in their behalf. Have you made the provision for them that you know to be

necessary? Is your Life Insurance sufficient to meet their needs? Do you realize that \$5,000 invested at 6% yields an income of less than \$6 per week?

For the sake of those who love and respect and trust you . . . those to whom you are the "greatest man in the world" . . . take pencil and paper, and figure how much you have done toward the building up of an estate. Then call in the representative of any Life Insurance Company and learn how little is the cost of adequate protection.
