"THE WHIP" GREAT SENSATIONAL FILM

Wonderful, Real Train Wreck and Horse Race in Which the Heroine Rides.

"The Whip" is the big picture that has caused a sensation and attracted immense crowds wherever it has been shown. It is a play of action, of plot and counterplot. It was originally produced at Drury Lane Theatre in London and made the most sensational success ever recorded.

When the big train wreck scenes in "The Whip," were staged in Maryland for this tremendous film drama, a veritable sensation was caused. All the countryfolk in the immediate vicinity of the wreck, who had no idea that the catastrophe was staged just for the movies, came running to the scene. Doctors were called, a hospital in a nearby city were notified and altogether a huge amount of commotion resulted.

The train wreck in "The Whip" by the way, is absolutely the most realistic ever staged for the movies and is also the most costly single scene ever staged for a screen production. The cost was over \$25,000, and it is but one of many mastodonic scenes in "The Whip."

IGNORANCE REGARDING GREAT NAAS VALLEY

(Continued from Page 3.)

What though it be covered with ice, where can you get to with your sled and dogs? You have to leave them in the end and take across the mountain or launch a borrowed boat on the spume-crested waters of the estuary even to get to Mill Bay. Even when the river is running in summer she is extremely difficult and uncertain. No; we have nothing to expect from the river.

Road to Terrace.

What we want is a road or a branch line of railway coming into the Naas Valley from Terrace. Already I am told there are 26 miles of road roughly completed from Terrace to the end of Kalum lake. This is one third the whole distance from Terrace to Aiyansh. Why not "continue the motion" and bring the road along into the Aiyansh Valley? If this road were completed so as to afford facilities for transportation at reasonable rates, what an impetus it would give to the development of the country! Freight need not exceed three quarters of a cent per pound by motor lorry, and no truck need return empty to Terrace. In view of such a possibility the river vanishes away. A good deal of trail, bridge and road work has been already done in the valley, and all unconsciously in the line of the old trails leading from Terrace to the Grease trail, and so on to Hazelton. Therefore, in projecting such a road we are following the line of least resistance and the fingerpost of nature.

Will Not Melt.

It is now up to the Government of the province to take hold of this road seriously. It should be made part of a wise scheme for planting the country with good men and true. Hitherto we have been planting traitors and aliens, whose mentality is no more capable of mixing with ours than oil is with water. The melting pot is all rubbish, they won't melt. So let us concentrate now upon what we know to be reliable material. Let the government buy back the purchased lands without compensation, and open them up to the soldiers. Also let the government send up a party to travel through all these valleys I have mentioned, and see if we have not got the plum of the province here as indicated.

Furthermore and first of all let this large district be properly organized and controlled. People fight shy of coming into an unorganized district especially if it be an Indian country. The Indians of this area are a fine people and good mixers. But the fact that they have grievance unredressed makes it all the more important that intending settlers should see law and order well represented in the land. The Indians are perfectly friendly to the white settlers, and that friendship should be appreciated by the authorities, and every possible occasion of friction carefully guarded against.

JAMES B. McCULLAGH.

A veteran of the Royal Regiment of Artillery and 36 years resident in the valley.
