Yesterday afternoon a very serious double drowning accident was narrowly averted when two girls floundered out beyond their depth at the Salt Lake. They had been wading along the shore and one of them reached a big rock and was standing on it when suddenly she slipped backwards into water beyond her depth. The other struggled to get to her assistance but she too got into difficulties and both were helpless. The quick action of two men on the bank who jumped in with their clothes on, saved what might have been a very serious fatality. The girls are little the worse for their experience.

GERMANS AROUSED PROTEST OF CROWD BY SHOUTING 'HOCH'

(Special via U.T.P. Telegraphs.)

Paris, July 31.—The judge advocate who investigated the street demonstration against the German peace delegates at Versailles finds no case. It was established that the Germans aroused the protest of the crowd by sticking out their tongues at the spectators and shouting "hoch."

The charges that stones were thrown rest upon the unsupported testimony of Dr. Theodor Melchoire, one of the German financial delegates.

The fire department is having a busy time this morning testing out the water pressure, as F. C. Broadfoot and H. L. Taylor are here on a visit of examination on behalf of the Mainland Underwriters' Association. There were six hydrants going at one time in the down town section this morning. Other special tests will be made about the city and the lack of fire protection at the oil dock will be specially looked into. Fire Chief McDonald, City Engineer Clements and Water Foreman Walker are out with the men this morning taking notes of the amount of pressure.

The Tillamook arrived in port this morning with a large shipment of fish which will be sent by rail east. There was on board 6 car lots of pickled herring and 4,000 cases of salmon. This shipment is among the first of a number which will pass through the city in the next few months.
