EXCEPTION TO NEGLECT BY SCRIBBLERS

Resolution Passed by Board of Trade Asks Members to Look Out for Publicity Features.

At the meeting of the Board of Trade last evening the following resolution was passed on motion of G. W. Nickerson:

"It is with regret that our Board learned that a body of 225 editors of the National Editorial Association of the United States, now touring Western Canada under the auspices of the Dominion Government, will not be given an opportunity of making a trip to Prince Rupert and obtaining first hand information as to the valuable industries and resources of northern and Central British Columbia. In wording this resolution we are not solely prompted from a residential point of view but more particularly through national sentiment in order that our fair Dominion as a whole may benefit by the exploitation of our undeveloped natural resources. No portion of Canada can compare favorably with this section of the country in this respect and what will help us will help our country in general.

"We know no greater medium of advertising than the press and as the information gathered will be spread broadcast throughout Canada and the United States we honestly believe that our Dominion and more particularly our province will have suffered an irreparable loss through this association not having been given an opportunity of coming to this district.

"Be it therefore resolved that a copy of this resolution be sent to our illustrious member, Lieut.-Col. C. W. Peck, and a copy to our energetic member, Hon. T. D. Pattullo, Minister of Lands, asking that they use their very best efforts in our behalf of future matters pertaining to such valuable publicity and suggesting that more sympathetic consideration should be given a new district, struggling for its bare existence and making superhuman efforts towards advancing with the sole object of shouldering more of her country's burden and making it lighter for others.

"We would also respectfully urge upon both our Federal and Provincial Governments that they adopt a closer working system with reference to what might be properly termed research work as only in this way can Canada as a whole reap the benefit of such ventures."

"THE WHIP" IS A GREAT FILM

Spectacular Production Shown at Empress Theatre Last Night To Large Crowds.

"The Whip" is the thing. It was shown last night to a large crowd and aroused the greatest enthusiasm. It is a picture of pictures. During its second week in Vancouver and Victoria it filled the largest theatres night after night. People went to see it again and again.

"The Whip" is a great motion picture. One scene alone, that of the great train wreck, was staged at an enormous expense merely for this offering. And it is the biggest and best train wreck yet seen in motion pictures. An automobile race and wreck that is so vivid as to hold the spectators gasping is another big feature. But, of course, the biggest feature of all the tremendous scenes and events in this gigantic production is the horse race. The scenes for this splendid event were taken at Saratoga, where the biggest racing events of the world are pulled off, and the excitement and the enjoyment of Saratoga with striking fidelity. "The Whip" has not one star but six. From start to finish it has been staged on a remarkably elaborate scale. The production has been made by that genius of the screen Maurice Tourneur, and he has excelled all his previous efforts in this tremendously successful production. By all means, see "The Whip." It is the only motion picture that you cannot afford to miss.

A RESOLUTION IN REGARD TO THE FISHERIES

Board of Trade Takes Exception to Neglect of Fishing Industry" By Minister.

At the regular meeting of the Board of Trade held last evening in the council chamber the following resolution, moved by G. W. Nickerson and seconded by Jas. McRae, was passed:

"In view of the fact that the Hon. Wm. Sloan, commissioner of fisheries, on his first visit to this district since his appointment, did not consider or see fit to give any consideration to the fisheries industry, it would seem that he is not sufficiently interested in this district to warrant his holding the position of commissioner of fisheries, therefore

"Be it resolved that this, the Prince Rupert Board of Trade, petition the Hon. John Oliver, Premier of the province, to assign to the head of this industry a man sufficiently interested to justify its existence, or abolish the department, and

"Be it resolved that in our opinion the work of this department is practically confined to the collecting of data, from year to year, said data as published being largely a repetition of previous reports, the only real changes being in figures, and

"Be it resolved that the provincial Government take steps to compile data to lay before the Hon. Mr. Ballantyne, on his proposed visit to this city in September, in an effort to convince him of the abuses that exist in the fishing industry of this province.

"This data should be compiled independently of the present fisheries staff.

"We would recommend that a copy of this resolution be sent to the Hon. T. D. Pattullo."
