The very last mile that experience, forethought, care and mechanical skill can apply is built into Dunlop Tires.

Eighty-six million dollars is a lot of money, but that's just the amount of money it will cost the U.S. to scrap the Lexington and Saratoga, navy aircraft carriers. They have been in service hardly more than fifteen months, but already the cost of running them has shown their design is a "mistake." Just as soon as new vessels of the new type are ready, these "mistakes" will be junked. "

H. E. Waby, district inspector of poultry for the provincial government, was responsible for the statement at the annual banquet of the Farmer's Institutes of District C. here that the federal overnment was intending to esablish an experimental farm in his district within the next year or so. It is expected that the farm will be at Prince George which has an advantageous location. Besides, Mr. Waby, spea-'kers at the Earmers' Institute banquet included Mayor Patterson, Sam Gocker, C. D. Orchard, D. G. Williams, G. B. Wil liams John Assman and F. D. Taylor.

Weather has been much milder here of late, the lowest thermometer reading for the week having been 18 above last Saturday.

There have been ructions in

many countries and

Direct access to the first sources of supply for select materials give stability to Dunlop Tires.

The co-operation of a world-wide organization contributes the results of extensive research for the perfecting of Dunlop Tires.

A system of Service Stations, spread along the highways of Canada, afford motorists every facility for keeping in touch with the Dunlop dealer. A.305
