STOPS LOOTING WITH MILITARY

Police Troubles at London and Liverpool Do Not Prove Very Serious.

London, August 4.—The police strike in London is a failure so far. It is officially announced that 994 policemen went out while the total number employed is 22,000; in a similar strike in Liverpool 700 out of 2,200 went out and 68 out of 1,456 at Birmingham.

On Saturday there was some looting in the poorer districts and the Lord Mayor at once appealed to the military for aid, which was promptly given. Six lorry loads of troops were sent and order was immediately restored.

At Liverpool appeals were also made to the military for aid in quelling disturbances where the authorities followed the example of London in expelling the striking police officers. The loyal police officials made several bayonet charges and half a dozen were arrested in the attempt to check the looters. The rioting did not cease until nearly four o'clock Sunday morning, many persons being slightly injured from stone throwing and charges by the troops. The troops fired into the air with a view to over-awing the crowd.

Mr. Caldwell says he hopes that the road beyond Thirteen Mile will be built soon as there are so many rich properties up that way which cannot be developed until the roads are constructed.

ICE AND CAR SHORTAGE HERE

Many Fishing Boats in Port, But No Facilities — Officials Busy on Job.

There is a serious ice and car shortage here just now. Twenty-three boat loads of halibut arrived since Saturday with something like 200,000 lbs. of fish but there are very few cars to handle it and also there is a shortage of ice.

W. P. Hinton, general superintendent of the G. T. P., is in touch with the situation and T. B. White, superintendent of cars, is rushing all the cars he can possibly get to this point. They are coming by passenger train instead of by time freight and it is expected that the situation will soon be relieved. The difficulty is in getting the cars returned speedily from the different points in the United States where the fish is shipped. Owing to the fruit business being at its height just now it is impossible to get any American cars to relieve the situation.

H. McCall, general superintendent of the road, is at present at Winnipeg and he is in close touch with the situation. The ice shortage is just as serious at present as the car shortage. The fishermen must have ice if they are to fish and there is very little available.

The following fishing boats are in the harbor: Lancelot, 13,000 pounds; Vienna, 11,000; Bringold, 15,000; Vesta, 14,000; Clara, 7,000; Niagara, 13,000; Volunteer, 2,000; H. & R., 13,000; Nidaros, 9,000; Speculator, 9,000; Eastern Point, 11,000; Cora, 9,000; Evolution, 1,000; Teton, 15,000; Ingrid H., 6,000; Caygeon, 8,000; Roal, 600; Kouyasu, 10,000; Kinmount, 4,000; Nuba, 7,000; Atli, 11,000; Tide, 3,000, and Murnee, 10,000 pounds.
