SCIENTIST PRESCRIBES DIET ACCORDING TO TYPE

Consider your body as a laboratory in which chemicals fuse, refuse to mix, "fight" one another, take on different forms or xplode, much as they do in a scientist's test tube! That's the adice of Dr. Benjamin Gaylord Hauser, noted physiological chemst, who believes that the chemical personality of any individual can be accurately charted and his health fortified and safeguar-'ed by following his "type" diet. Dr. Hauser is seen above with his "chemical man," used in demonstrating his theories on diet. Below is Jack Dempsey, analyzed as a "sodium" type, and Miss Gillie Dove, who is a "hydrogen" type. "Classify yourself!" cried r. Hauser, and stick to your proper foods. The process won't ecessarily make you wealthy, but it will certainly make you ealthy-and wise." Here are some representatives of the difcrent types: Sodium: Galli Curci, Pola Negri and Jack Dempsey; Tydrogen: President-elect Hoover; Phosphorus: Col. Lindbergh, President Coolidge; Calcium: Thomas A. Edison and Mussolini.
