Beware of Colds

whether you've had the FLU... or not

This is the time of year when serious cold troubles, such as deep chest colds, bronchitis, and pneumonia are always at their worst. Just now, with so many people in the weakened condition that follows a flu attack, it is mo e important than ever to heed every cold as a danger signal and check it promptly before complications can

Ouick Direct Treatment

At the first sign of a cold, melt come Vicks in a bowl of hot water and inhale its healing vapors. Also place some up each nostril and snuff well back. This quickly opens the air passages. At bedtime, rub Vicks vigorously over throat and chest and cover with a warm flannel. Most colds yield overnight to Vicks twofold action:

Acts 2 Ways at Once

(1) Its medicated vapors, released by the warmth of the body. are inhaled direct to the inflamed air passages, loosening the phlegm and easing the difficult breathing.

(2) At the same time, Vicks acts through the skin like a poultice "drawing out" tightness and soreness, and thus helping the vapor to break up the congestion.

Mothers especially appreciate this simple external treatment because it cannot upset children's delicate stomachs, as to much "dosing" is so apt to do.

News of the Mines

AROUND PRINCE RUPERT

Duthie's Side of New Deai; Stampede Into Iskut Country Forecast; Machinery for Georgia River

In a lengthy letter to the Omineca branch of the British Columbia Chamber of Mines at Smithers, J. F. Duthie, president of the Duthie Mines, Ltd., explains the new deal on the Hudson Bay Mountain property and expresses regret at criticism that has been directed against him through the capitalization of the company being doubled in connection with the transfer of control. After it had become necessary for him to advance considerable of his own pe sonal funds to pay

for development work made necessary by new conditions arising in ground work on the Big Missouri the mine, Mr. Duthie states in mine at Stewart. Three thousand his letter that "it became neces- feet of tunneling has already been cary for ways and means to be gione. The stock- souri stock. holders probably do not ealize that myself, being the largest individual stockholder, have more at stake twice over than the balande of the stockholders. I have heard many rumors that I was unloading my stock and getting out and I want to give you the assurance that I have not unloaded any bock. The change of management means very little as, in our opinion, the mine is made. Jack Tu ner and myself will be up in the north just as soon as the spring weather permits and you may be assured that we will be back with renewed vigor."

Following the report of Dr. Ker of the geological survey on the district, which he examined last season, prospects are that there may be a stampede this spring into the Iskut-Stikine territory. Between the Naas River and Yukon-British Columbia boundary is a stretch of 250 miles of ter itory as yet unprospected. lovernment mining engineers speak highly of its possibilities. Stewart claims that it is more strategically situated as a point of entry for this district than either Alice Arm or Hastings Arm or via the mouth of the Stikine River. It is said that the Iskut will prove one of the richest mineral areas in western Canada.

In order to extend the scope of its operations on Portland Canal property, the Georgia River Mines Ltd., has just placed an order for machinery, the first part consisting of a heavy portable unit ca-Going south to arrange for the pable of driving two large driftfinancing of two mining proper- ters, this to be followed by a staties, L. DAILY NEWS' SHOPPING SERVICE

for Out-of Town Subscribers

To serve its women readers, and particularly those who live at a distance from a retail centre, The Daily News has instituted a Shopping Service. The Daily News is read by hundreds of women living far from any urban facilities for shopping and it is for these that this shopping service is primarily intended. Of course, The Daily News Shopper will attend to the man also, although he can buy a pair of braces anywhere. But not everywhere can a woman get a bit of lace matched—or a piece of embroidery thread-or the thousand and one things that make up the difference between a woman's wants and a man's.

The Prince Rupert Merchants Carry between them Stocks running up to \$2,000,000

and while it is not possible to purchase everything in this world in Prince Rupert, most things are available by return mail.

None of the Prince Rupert merchants can possibly advertise everything they carry in stock, but if the thing wanted is to be got in this city, our out-of-town readers may be sure that The Daily News Shopper will get it when asked for.

If any of our women readers cannot get what they want in their nearest store, all there is to do is to write to The Daily News Shopper, stating what is required with whatever details there may be, enclosing the cost, and if it is in Prince Rupert, The Daily News Shopper makes your purchase.

This Service Free

to our women readers and is the outcome of many individual requests made to our staff on their travels through the district in seasons past. This service has been appreciated in these individual cases and is now extended to all with the hope of the same appreciation.

So Do Not Hesitate

Do not think you are imposing upon The Daily News. Our shopper is awaiting your requests.
