DAILY EDITION.  Tuesday, August 5, 1919.

Soviet of Hungary Thing of the Past.

The people of Hungary or their leaders thought to evade their obligations under the peace treaty by throwing off their former government and forming a soviet. This did not work. They have at last discovered their mistake and have been forced to resign.

Hungary was a party to the war and she would have been only too glad to share the indemnity if they had won. She has lost and must pay her share, soviet or no soviet. As a matter of fact the people of Hungary were already tired of Bela Kun and his crowd, especially when they found that they would not escape their indemnity by their soviet allegiance.

Tugwell Island is Splendid Resort.

Few places have a summer resort at their doors such as Prince Rupert people have in Tugwell Island. There is a big bar of sand and gravel on which the sun shines when the tide is out and where the water is warmed and pleasant to bathe in. There is good anchorage for launches and a protected passage all the way from here.

This beach will undoubtedly be used a good deal in the years to come. It will become fashionable to go to Tugwell and then all the city will be there. It is rather far away to go back and forth every day except for those who work short hours. A small launch takes over an hour to make the run. For camping purposes however there are few places to equal it.

Will Be Rush To This District.

The Vancouver Sun says: "Central and Northern British Columbia have been developed much more rapidly during the past few years than the southern part of the province has suspected. The business men of Vancouver who are making a tour of that section are filled with surprise and gratification as they learn the facts regarding present and prospective expansion.

"British Columbia has vast potentialities, not only in its minerals and its fisheries and its forests, but also in its farming lands. Next year there is going to be a rush of settlers to the territory along the line of the Grand Trunk Pacific. This prediction may be made with the utmost confidence.

"Vancouver wants its share of the trade with this northern and central country. There is no sense in letting Edmonton have it all. The only way to get the trade is to establish adequate transportation facilities.

"The people up there have grasped this fact clearly and are doing their utmost to impress it upon their visitors from here. Railway communication with Prince George should be opened up at the earliest possible moment."

Nothing But Bark Of Local Street Dog.

Under the title, "Patronize Home Industry," the Western Committee of the Canadian Reconstruction Association has issued the following appeal for support of the home market:—

"In patronizing home industry, we help the laboring man and protect the home capital that is invested. A thing that keeps any town backward, is the man who wakes up at the alarm of a clock made in New England States and buttons his New York pants to a pair of Buffalo suspenders; puts on a cowhide tanned pair of shoes made in St. Louis, shaves with a Connecticut safety and dries on a cotton towel made in Pennsylvania; sits down to a Grand Rapids table on a chair made in Chicago, and butters his bread with Australian butter with a Boston-made knife and eats Kansas City bacon and Minnesota grits fried in American lard, cooked on a Detroit stove, and has a dessert of California fruit-seasoned with spice made in St. Paul, after which he slips into a New York raincoat and claps on a wool hat made in Philadelphia, and goes down in an Ohio automobile and finds the office boy dusting his office furniture, made in Illinois. He fills his Rhode Island pipe with tobacco put up in Georgia. He starts to business and wonders why local trade is quiet; goes home at night and gets into a foreign-made bed, and the only thing local he gets is the bark of the street dog, after which he confuses that the town is not a good place to live in and do business in."
