#### LATEST PEACE RIVER PROJECT

The building of a railway from Peace River to Van- sary, as it had been, for them to be couver south from Beaver Lodge and connecting with the in the good graces of the powers Pacific Great Eastern at Quesnel, thus setting aside the claims of both Prince Rupert and Prince George, looks to us like a promotion scheme for the purpose of getting hold of some English capital with which to play. The very fact that it proposes to use P.G.E. south of Quesnel is enough for the city. Even then he would to condemn it. If it were put through it would mean the total stop of future British investments in this country.

The proposal, we presume, would not interest British Columbia much because it would be for the purpose of developing Alberta and not this province. It would be in He was well satisfied with the presline with the proposed Obed Cutoff and would not de- ent system, but he would not object velop the Peace River Block or the part of this province abide by the result of such a south and west of the Peace. For that reason it is to be plebiscite. However, he did not presumed the British Columbia Government would refuse to pay any part of the cost. Certainly Prince Rupert paign. It looked to him like an atwould oppose doing so and we imagine all the country the trail. through to Prince George would also be opposed to it.

Mind you, we are not opposed to the railway. British homme) would lose money person-Columbia needs railways. What we are opposed to is to ally if elected mayor, Ald. Prud-British Columbia giving anything to support an Alberta job for a meal ticket. Nor'did he railway. What we need is a railway that will be built wish to enter any popularity conthrough British Columbia to develop the British Columbia Peace River Block. Any line which does not fill that pur- player, but he thought he could pose is not in the best interests of the Province.

We see no objection to a charter being given a railway was being made to make out that to build, if it wishes to do so without any bonus or help, but if the Province is to pay any of the cost, it should insist was the first time he had known he that the railway serve that part of the province which is in need of development.

### C. P. R. TO PRINCE RUPERT

When Mayor McMordie stated in a public address last week that the C. P. R. was likely to come to Prince Rupert, he was giving utterance to something which had been talked of on the street a good deal and which is generally expected to take place.

In the past the C. N. R. has shown no disposition to offered the choice of a good felmake use of the port to the extent to which the people here businessman. He promised that he thought its manifest advantages entitled it. They have would hold another meeting on Janmake use of the port to the extent to which the people here simply held on and followed development instead of lead-

Today there is a change of disposition and it seems as owing to the festive season, he had if they planned to try to make this end of the road pay. We hope they will and promise them every possible sup- many people today who were not port, but, at the same time, if the C. P. R. can be induced to come here and help in the development of the port, we are quite sure they would receive a hearty welcome.

## Numbers made famous by Quality

The learned men of Ancient Greece decided that the world contained but 7 wonders. The Pyramids, the Hanging Gardens of Babylon-the Colossus of Rhodes and 4 others - these were the 7 masterpieces typifying man's greatest achievements.

Ald. Prudhomme declared that he would be opposed to sale of the telephone system, which was now giving a good return to the city, un-less there should be some advantage such as long-distance connection favor the citizens having the final say on the matter.

Regarding the police, he had always been under the impression that there was a saving to the city of some \$6000 or \$7000 with the prothink it was necessary to bring the matter of the police into this camtempt to draw a red herring across

In the matter of an allusion by Mr. Newton that he (Ald. Prudgive the city honest and businesslilke administration. An attempt he was cheap and that he would run the city's business cheap. It

#### Favors Day Labor

Ald. Prudhomme made it clear that he was not in favor of contract system in city work as a general principle, since the city had the If run properly, the city could do work more cheaply than any contractor, he felt.

In conclusion, Ald. Prudhomme reminded his hearers that they were electing a manager for the cityuary 14, when he would deal in some detail with municipal finances.

Ex-Mayor Newton said that, come to the conclusion, however, that, rightly or wrongly, there were satisfied with the manner in which municipal affairs were being handled. Therefore, he would ask the people to reflect back on his former years of service and conclude whether or not they would be better satisfied were he returned to office. He was still confident as to the future of this city. That was why he had remained here, although he had sold out his business a year and a half ago. Mr. Newton took credit for most of the roadways in the city which were now spoken so well of having been constructed during his regime. As a matter of fact, no one else than his humble self had been at the helm when the most of the large municipal expenditures had ben made. No matter who might be returned as his colleagues on the council, he thought he would be able to work with them.

Mr. Newton congratulated Ex-Ald. Casey for having gotten out reliable data and figures on the matter of policing the city. Now that he had completed buying his Christmas presents, he had intended going to the City Hall to get that very information. Since he had said recently that he favored a new plebiscite being taken on the matter of policing, some of the citizens had jumped to the conclusion that he was an absolute opponent of the provincial police system. Though in principle he was opposed to the introduction of an outside mode of local government, he was satisfied to abide by the result of a plebiscite on this particular matter and to choose his line of policy accordingly.

Mr. Newton asked why Ald. Prudhomme should make a martyr of himself in having to engage a manager for his hotel while he devoted his entire attention to city affairs. He (Mr. Newton) believed he could fill the job as well as Ald. Prud-Later in the campaign he would call a meeting of his own, Mr. Newton promised

Ex-Ald. Casey Ex-Ald. Casey believed that each portion of the city should be represented on the city council. There- quick results.
