Protection Plus Investment

"If I had invested all my earnings with your company until now I would have been away ahead of the game."

The above is a statement received from one of our policyholders whose policy matured recently.

He figured the profits realized on his good investments, including bonds, mortgages and stocks, etc., also the losses sustained from poor investment, then compared them with the returns from his Sun Life Policy and discovered:

- 1. That he had made more profits from his Sun Life Endowment Policy.
- 2. That his mind was free from worry connected with ordinary investments.
- 3. He felt safe and happy because he and his family were protected all the time.

His Sun Life Policy proved to be not only a guard against death or disability, but a first-class investment also.
