NEW PROVINCE PROPOSED

During the third week of June the annual convention of the Associated Boards of Trade of Central British Columbia will be held in Prince Rupert and on that occasion it is suggested that the proposal may be made to form a separate province for Northern British Columbia.

Should it be found by that time that the government at Victoria is still taking no step toward building the highway out of Prince Rupert there is no doubt strong support for the movement would come from residents of this city.

There are many who think that if Northern and Central British Columbia had charge of her own affairs she would make much greater progress. The matter will doubtless receive careful consideration before the time of the big convention.
