THE GRAIN TIEUP

Prince Rupert is suffering because of the tieup in the grain business by which the Wheat Pool and other grain dealers are refusing to sell their wheat unless they obtain what they think is a reasonable price. In view of the importance of the big price war, especially to the farmers of the country, Prince Rupert has made no protest whatever. Not a word has been said of which we have heard, which would make any objection to their course of action. We are with them.

All we ask in return is that directly grain begins to move Prince Rupert be allowed to share with other ports the business which will follow. It is to be supposed that this will be done. If it is not, at least a strong protest will be made from here.

WIDESPREAD POWER SHORTAGE

The shortage of water in southern British Columbia and adjacent United States territory is having serious consequences. Puget Sound cities are particularly hard hit and the probability seems to be that if rain does not come there, the industrial life of the cities affected will be interfered with to a great degree.

Usually there are heavy autumn rains in that region, but this year the rains have not come and the power supply is gradually diminishing as a result.

THAT DISTINCTIVE FLAG

While the Canadian Legion does not wish to see any change, it realizes that the feeling is growing in Canada that the country should have a distinctive flag. It makes suggestions therefore. One is that the flag should be a maple leaf on the field of the ensign. That is a very reasonable suggestion and one that it seems should be adopted. Personally, we should prefer to see the beaver, but it looks to a foreigner too much like a pig and is often mistaken for it. Everybody knows the maple leaf. It is artistic and clear cut.

Coats of arms are out of date. They do not mean anything except to the student of heraldry. They date too far back for a new country. Why use a shield when shields have been out of use for hundreds of years? They also speak of war, while we wish everything in Canada to indicate that we are devoted to peace. The maple leaf, we think, would be the proper design, a simple leaf.

Sport Chat

The London Express says that negotiations are under way for another match, at Paris, between Young Stribling and Primo Carnera. The match, the newspaper says, will be held on or about December 12. Stribling has agreed to terms which contain a provision that if either loses on a foul the offender shall forfeit his share of the purse. Stribling was disqualified in the fourth round of his match with Carnera at Royal Albert Hall.

In an England-Scotland international game played recently the referee was an Irishman, and his control of the game was splendid. He specially pleased the Scottish players inasmuch as his ideas were much nearer to those of Scottish referees than English officials. "Did you notice," Alex James asked, "how, when the referee gave a foul he blew for the free kick to be taken in almost the same breath? That is as it should be if the team is to get the full benefit of the free kick. In England, however, referees do not signal for the kick to be made until the other side have had time to take up strong defensive positions."

Lutheran Church  
Ladies' Aid Had  
Social Meeting

The East End Ladies' Aid of St. Paul's Lutheran Church met last night in the church parlors. Mrs. Bert Chastad was hostess, assisted by Mrs. Thor Strand. There was a good turn-out.

The meeting opened with the singing of a hymn which was followed by reading of the Scripture and a brief discourse by the pastor, Rev. John H. Hanson. There were selections by the male choir, under the leadership of Peter Lien, and Mrs. Dryndahl read a paper on "City Mission Work." After a brief business session, delightful refreshments were served.

West of the Great Lakes

THE growth of the Bank of Montreal has closely coincided with the gradual development of Canada from a small colony to a great Dominion. In the Bank's westward advance to the Pacific Coast, one of the important links in its transcontinental chain of Branches was formed in 1878 at Winnipeg, when the Bank opened its first Branch west of the Great Lakes.

This forward step, taken seven years before railway communication was opened up between Montreal and Winnipeg, made available to the incoming population on the prairies the stabilizing co-operation of a strong, conservative and at the same time energetic financial institution.

Of the Bank's 667 Branches, 14 are in Winnipeg and 188 in the Prairie Provinces.
