CONSERVATIVES RETIRE

It is a matter of some regret to see men who have taken a prominent part in public life retire as it is announced two prominent Conservatives of the province are doing. Hon. H. H. Stevens has been carrying the banner of the Conservative party for many years, and General J. A. Clark, who also recently announced his early retirement, has also been prominent in the party. Mr. Stevens has been a vigorous campaigner and has been heard often in the House of Commons. Hansard is full of his utterances.

There are not many men in either party who can be depended on to visit outlying constituencies and put heart into the party leaders and enthuse the following. When one disappears it leaves a gap which is not easy to fill.

ORIENTALS IN B. C.

According to a brief despatch published Wednesday, advisory board of the Farmers' Institute of B. C. passed a resolution favoring the removal of Orientals from British Columbia. That is just as reasonable as it would be for the Orientals to pass a resolution asking for the removal of members of the Farmers' Institutes from the province. Many Orientals are Canadians, adopted as citizens of the country, with the one paltry exception that they are not allowed to vote. They have all other rights the same as the rest of us, including the right to meet and pass fool resolutions.

We do not think it would be a good thing for the country to allow unrestricted Oriental immigration. We do not think the Orientals and white people mix well. There is also the danger of lowering the standard of living of the people here by allowing competition with a race whose standard is admittedly very low. It is very largely the virtues of the Orientals that are objectionable, although

they also have some objectionable vices. We object to the Chinese because they save all their wages and send the money to China. With us saving is looked on as a virtue, but in their case it is extremely objectionable.

There are other reasons for preventing any great influx of Orientals into Canada, but there are no reasons for making martyrs of those here and returning them to their native countries. There might be a Longfellow to sing of their hardships as was done of the Acadians when they were banished.

It is not so very long ago that farmers were asking for the admission of Orientals to enable them to get their land cleared cheaply. We do not wish to pose as the champion of the Asiatic races, but would suggest that we have a lot to learn from them and that we are all looking to do business with them through our port. What we need to do is to keep on friendly terms with the Japanese and Chinese and to learn to know them better.

The Letter Box

FISHERMAN'S VIEWS

Editor, Daily News:—
 In your editorial of a recent date, referring to us steering our fish to one company. Now, Mr. Editor, I think you will agree with us if you get the facts. When three of the big fishing companies combine to hold prices of fish down, and load in turns, would you think that we are so submissive as to say nothing? This went on at Hippo Island for the last two years and for a little while at North Island. "Competition is the life of the trade." That's what we all want. We had to put on our own packer and did you think that we were going to run them into the Cold Storage, New England or B.C. Packers. Any company that did not get fish from the trawlers this year, bid for it themselves.

We hold no great animosity against any of these buyers. We fully realize there is no sentiment in business. We have the fish and it's up to us to get the highest prices. But whenever such issues as combines, fish traps and privilege arise, which the cannery men are trying to put over us, we aim to destroy any such monopoly. We appeal to the public for their support, as this fishing industry is a heritage right of the people, and our aim will be to benefit and save it for the future.

Give us credit for raising the price of spring salmon from 9c to 14c per lb. In fact, this association has helped the fishermen in many ways, which increased his buying power and has helped the business people of Prince Rupert and Islands with good clean money which supports a white population.

Should the cannery men succeed think of the amount of Oriental labor! Has it helped the country as much as we do? We run our association on strictly hard and fast business rules. No theories or dogmas, as some would like to brand us, as if we were "Revolutionary movement."

Thanking you for this space, I am yours very truly
 CHARLES VALLEY,
 Sec.-Treas., Hippo Unit,
 N. B. C. S. F. A.

DENIES GOSSE STATEMENT

Editor, Daily News:—
 It was with astonishment I read in your paper of yesterday's issue, a statement made in Vancouver by Mr. Richard Gosse, President of the B. C. Packers, regarding the amount of sockeye salmon taken by the Indians from the spawning grounds.

With regard to the Indians on the Naas River, he estimated that 34,000 sockeye salmon were taken during this year by the natives—presumably for food purposes. This is entirely erroneous. The Indians leave their villages about the middle of June to fish at the canneries at the mouth of the

TOOK CATHARTICS EVERY NIGHT

Eating ALL-BRAN Relieved Constipation

Everybody who is slave to cathartics and laxatives will be interested in this letter—

"I took cathartic pills every night and enemas daily to relieve myself and take away the awful headaches I was subject to. Two months ago I started eating a large bowl of your ALL-BRAN with cream for breakfast and today I am in fine condition, better than I have been in three years. My bowels are regular every day. I have not taken one cathartic pill in two months." (Name and address upon request.)

Constipation gets in its deadly work when bulk is left out of the diet. Kellogg's ALL-BRAN, however, will supply this bulk. It sweeps the intestine clean and stimulates normal action. Two tablespoonfuls daily—chronic cases, with every meal.

Thousands have regained their old-time vigor and relieved constipation forever by eating ALL-BRAN. Doctors recommend it.

Kellogg's ALL-BRAN is 100% bran. Ready-to-eat with milk or cream. Delicious recipes for muffins, breads, etc., on the package. Grocers sell it. Restaurants, hotels, dining-cars serve it. Made by Kellogg in London, Ontario.

river, and on the Skeena, and do not return until after the sockeye season is over. A few—possibly half a dozen old people—remain at home and may if they are fortunate enough, put up a few bundles of smoked sockeye salmon, some 800 fish. This is very different to 34,000 sockeye as stated.

The main fish supply for their winter consumption consists of coho, dog salmon and humpbacks which are caught and dried generally in October when the Indians return from the canneries.

This year owing to the poor season for fall salmon, the Indians were unable to put up an adequate supply for their winter needs.

W. E. COLLISON,
 Indian Agent.

What doctors say

BEER
 in moderation

FOR generations doctors have paid tribute to the sustaining, invigorating and health giving qualities of beer—when taken in moderation. There is no finer beverage than good beer for workers in every field of endeavor, whether mental or physical. The undermentioned beers are guaranteed to be absolutely pure. To safeguard the public they are constantly tested by Analytical Chemists employed by the B.C. Liquor Control Board.
