DAILY EDITION

CHORLE Saturday, January 19, 1929

This is the season of the year to commence preparing for a garden. Many who saw what their neighbors were doing last year have made up their minds to emulate them this coming spring and see if they too cannot have a lawn or a flower garden on their lots.

PREPARING THE GARDEN

While gardening the muskeg is not quite an easy matter, it is not so difficult as to prevent anyone having a garden. Flowers of the hardier varieties grow well and vegetables are a good crop, once the soil is sweetened. The first thing is to turn it up to the air and light and drain it. The rest comes easy, a sands and a ballar and

When the weather is right in January or February is the best time to dig, but good gardens have been obtained by later cultivation.

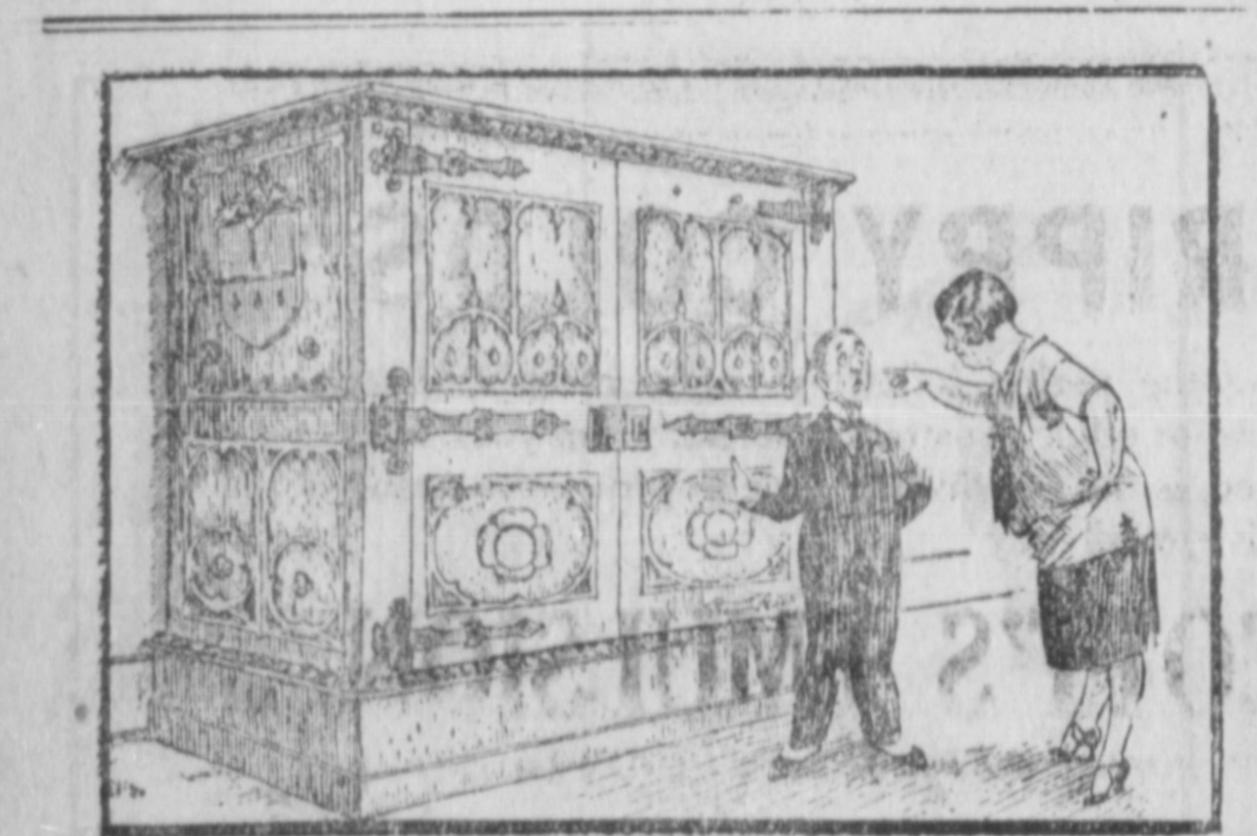

AFGHAN SITUATION

While Great Britain may not be taking any active steps in connection with the Afghan rebellion, it is plain to everyone that the Empire is vitally interested in the situation because Afghanistan is a close neighbor to India and controls the passes through the mountains. This gives a great opportunity for propaganda or even for military advantage and the government of India would find the situation difficult with a hostile neighbor, even sufficient- baffling query: "What type of ly hostile to poison the minds of the people of India against evening coat shall I get for that the government.

The Indians and Afghans are not like the people with eries?" whom Canadians ordinarily have to deal. They are of a different race with different religion and ideals. They fishtail back that adequately covare influenced in a different manner from those of the ers any long dress panels. It is white race. The situation cannot be judged according to collared luxuriously in yellow similar conditions in Canada or the United States. The fox and velvet and boasts a people connected with the government of India know this graceful, slenderizing line. Dominion Rubber Vinices and act accordingly.

CONSOLIDATED MOVE SARDE SAR

The report that the Consolidated Mining & Smelting Company plans to open an assay office in Prince Rupert and has already appointed a man to take charge of it is one of the best bits of news we have yet been able to publish. It is still another indication of the change in the local situation and the desire of some of the big interests to make use of the advantages which exist here. With an assay office here many mining men will come and bring their samples for testing. There are already men engaged in handling mining stocks here. The next step will be to establish a mining bureau and have it as complete as possible.

What on earth did you want to buy a great massive cup-

board like that for?"

"But my dear, it's a genuine antique. They don't make things like that nowadays. Why, an old crusader used to lock his wife up in that before he went off to the wars." -The Humorist.

Fashion Fancies

As for furs. As a general rule with the theme. only the very flat furs are used for coats this year. Soft, supple 50 silk paper, are used, and these are sometimes collared and cuffed \$3.00 with long-haired fur, such as fox,

REALLY GREAT PICTURE

Editor, Daily News:-I am informed one of our city's moving picture houses is presenting here next week the famous picture "The King of Kings." It was my privilege to see this great picture last September in Massey Hall, Toronto, where it drew capacity audiences in that three thousand seated building for several weeks. I hesitated to go to see this picture as I was fearful The appointment of Hon. J. D. SUCCESSFUL CARD that there would be something MacLean, former Prime Minister of irrevenerce about it. But of British Columbia, as chief exrons. One would only suggest to the British Columbia Government,

Sun Life Policyholders To Receive

In Addition To Regular Dividends in 1929 of approximately \$17,500,000

SUN LIFE ASSURANCE COMPANY OF CANADA

MONTREAL

January 8, 1929.

To Our Policyholders:

We have just completed another wonderful year, with pro-17 fit earnings never before equalled. Our Directors have therefore inaugurated the principle of allowing a Special Bonus on maturing participating policies. The basis for 1929 may be summarized as follows:

> On policies ten years in force, maturing by death or (on 'reserve dividend' policies) by the expiry of the reserve dividend period, a bonus of 10 per cent of the reserve, increasing yearly to 15 per cent on policies in force twenty years or longer; on endowments, at maturity, a bonus of 10 per cent of the face value of policies ten years in force, increasing yearly to 15 per cent on policies in force twenty years or longer.

Details will be given in the forthcoming annual report. This special bonus is in addition to, and independent

of, the usual annual profit distribution, the scale for which, for the minth consecutive year, will again be increased.

We congratulate our members on this happy announcement. It has been made possible only by the large profits earned on the securities; selected for the investment of the Company's funds.

As ninety-five per cent of all surplus earned by the participating assurances accrues to our policyholders themselves, they enjoy practical mutuality, combined with the enterprise and stability of stock management. The effect of this combination is evidenced by the results.

President.

Macaulay
