CO-OPERATION WITH PEACE RIVER

It is well pointed out in a letter published yesterday cumbe. and today in regard to the Peace River Railway situation that the interests of Prince Rupert and the Peace River -1. Mrs. L. B. Lambley; 2, Mrs. country are one and that they should take joint action to demand the building of a coast outlet from the Peace in broidery-1, Mrs. Geo. Howe; 2, the immediate future. Page Rideout in his letter points Mrs. R. Cameron. out why action should be taken and why the Federal Government and the railways should take action. We heartily commend perusal of the letters, especially at a time when the railway magnates are in the city.

It is further suggested that the Prince Rupert delegates who are going to the Peace River next week should take steps to cement the bond of interest which exists between the two communities and try to secure the much

needed united action.

DROPPED FROM HIGH PLANE

Mr. Bennett, in the course of his month's tour of British Columbia, kept his argument resolutely on a high plane. He explained his own policies and aims, outlined his plans for making a market in Canada for Canadian Wilson: 2, Mrs. Alex McKinnon. goods by building up diversified industries in the country. And he assailed the policies of the King Government which Howe: 2, Alice Comez. look to the development of Canada's external trade. All this was perfectly legitimate. It is the sort of thing Canada wants—a free and proper discussion of national questions. It happened, however, that before leaving the province, Mr. Bennett weakened in his fine resolve, and J. J. Little: 2, Mrs. J. Bremner. in a speech at Penticton indulged in some very cheap sncering at Hon. Herbert Marler, who sails next week for Tokwo there to become Canada's first minister to Japan. It was unfair, seeing that it was launched against a Hellman. public servant, who has no means of ren'ving, instead of against the government responsible for his appointment. And it was based upon an inadequate appreciation of the situation.
