Philadelphia Surprises Fans Winning Second Game in Series 9-3

CHICAGO, Oct. 9.—Chicago Cubs went down to an ignominious rout on the home field in the second game of the world series here today, as Philade phia Athletics surprised the baseball world by winning 9 to 3, thus taking what is generally regarded as a cinch on the series. Baseball observers are wondering today not who will win the series, but if it is going to take the Athletics four or five games to do it. Having been able to make no better a showing than this on their home grounds, it is difficult

for experts to see today how the Cubs are going to retrieve them-selves even for one game after Ottawa Watches the adjournment to the Quaker City, where play will be resumed on Friday As they did yesterday, the Cubs

again lost today on fielding er-rors and there was only one error at that, again by English, the star Cub shortstop, who dropped couple yesterday and did half as badly again today.

let. I, personally, am behind it

Urges That Canadian National

and That It Be Done Immediately

The construction of an outlet from Peace River to the coast would cost from thirteen million to twenty million dollars, according to the route chosen from four surveys which have been made by Canadian National engineers. The longest and most expensive of these routes would cut by half the shipping distances from the present end of steel to either Vancouver or Prince Rupert. The shortest route to tidewater would cost much less, and would give still nearer access to tidewater.

Railways Build the Coast Outlet

The Peace River country is entitled to and must demand its fair proportion of government expenditures. It asks that these expenditures be made through the Canadian National Railways in the building of a coast outlet, according to the best judgment of its engineers. If this work is undertaken in conjunction with the Canadian Pacific, well and good. But it is first and foremost an obligation upon our Dominion government and our Canadian National Railway system. It should not be necessary to await the pleasure of the C.P.R., which took nine years to decide whether or not to purchase the northern roads, and could make larger profits by withholding the coast outlet in favor of the longer haul. The need is an immediate one, and there can be no sound reason why it should not be met at the next session of our Dominion parliament .- Peace River Record.

TOLMIE TO START NEW

Sole Expense of Province

VICTORIA. Oct. 9.—Legislation nounced in an address before the Saanich Conservative Association.

The new highways will be termed arterial highways and will be built and maintained at the sole cost of the provincial treasury.

The provincial government will take over a number of existing main highways in the municipalities adjacent to large centres of population and will improve them by straightening and broadening and where necessary by resurfacing a program of new trunk highways where such a course is found de-
