GEORGES CARPENTIER Noted Heavyweight Boxer

Georges Carpentier, who was hero, idol of France and for years heavyweight champion of Europe, was born at Lens, a little coal mining town in the north of France, on January 24, 1894, of good French stock. Having come under the eye, at the age of eight of Francois Deschamps, then lightweight champion of France, Carpentier the next year made his first public appearance in the ring as a bantamweight. Continuing under Deschamps' tutelage, Georges, at the age of 13, as a lightweight, won his way to the finals for the amateur championship of France. A year later, when only 14 years of age, Carpentier turned professional and won the bantamweight championship of France from Kid Salmon on a foul. From this time on the youthful whirlwind fought his way through a brilliant bunch of bantamweights, featherweights and lightweights in each of which divisions he won the championship. Then followed an uninterrupted string of victories in the welter and middleweight classes, culminating in his victory over Harry Lewis, one of the best middleweights who ever

ASKS SHARE IN BIG MISSOURI MINE PROCEEDS

Suit Entered at Victoria For \$100,000 Now Said to Be In Bank

VICTORIA, May 10.—Claiming \$100,000 as his share of \$300,000 said by him to be on deposit in a Vancouver bank, as a result of the development and sale of the Big Missouri group of claims in the Stewart district, William Harris, 76 year old free miner now living in retirement in Port Angeles, Wash., has filed suit in the Supreme Court here against Daniel Lindeborg and executors of the late Andrew Lindeborg, James Proudfoot and Hiram Stevenson.

The plaintiff asserts that he discovered and located three claims on the Salmon River which he recorded in 1904 as the Jumbo Group. These claims were the high value portion of the Big Missouri consolidation he claims. In June 1919 he said an agreement was entered into with the late James Proudfoot and the late Hiram Stevenson and associates who were to keep the claims alive on records, secure crown grants and to negotiate for the sale of the properties on a basis of two thirds to themselves and one third to the plaintiff.

Proudfoot, Stevenson and Andrew Lindeborg entered into possession of the claims and re-

lated and recorded them in 1919 as the Big Missouri and Kansas mining claims, with other claims added. The plaintiff asserts that he has received only \$364 as his share.

URGES MIXING GRAIN CANADA

If Permission Refused, Then Would Be Done in United States Terminals, Says Crerar

OTTAWA, May 10.—Mixing of grain should be continued in the best interests of the farmers, Hon. T. A. Crerar, president of the United Grain Growers, Ltd., advised the agriculture and colonization committee of the House of Commons today. He recommended a definite standard and additions to the staff of the Board of Railway commissioners. If mixing was abolished altogether it would be very difficult to market certain grades, Mr. Crerar said. Furthermore, mixing would then be transferred to United States terminals. It would be better to keep the mixing under Canadian supervision.

J. R. Murray, general manager of the company, contended that complaints by European buyers against standards of the last few years were due actually to poor milling value of the 1927 crop and poor results of drying that and the preceding crop.

A Friend in Need

"I saw a man in a smoker unfold his paper—put his feet up on the opposite seat, take out his glasses, clean them, dive into his pocket and bring out a broken cigar. He tore a piece off his newspaper and tried to wrap it around the cigar—but I could see that his soul was troubled. I took out my pocket pack of 'protected cigars' and gave him a foil-wrapped Marguerite as fresh, firm and fragrant as when it left the factory. Naturally we got to be good friends. I'm going fishing with him in the Spring."
