WALTER JOHNSON LOSES HIS FIRST BASEBALL GAMEFOR WASHINGTON ON ASSUMING MANAGEMENT THERE

NEW YORK, April 18.—Baseball got a start in the east yesterday when Walter Johnson made his managerial debut in Washington against Philadelphia. Johnson sent in "Sad" Sam Jones against Connie Mack's choice of Yerkes. They were both wrong, Walter more than Connie. Mack sent for Eddie Rommell as the big train shuffled out of Garland, Braxton.

The Athletics led 5 to 4 as the second choices settled into position after the second innings, but they continued their familiarity with senatorial pitching until the margin

was 13 to 4 at the end of the fifth. Adolph Liska halted the debacle, HARRY HILL but the score remained stationary

Detroit poured a neat dose of shellac down the throats of Cleveland to win 15 to 3, despite Ave-

> rill's second homer in two days. Daw Howlet urged St. Louis troop to a second straight triumph over the White Sox with a score of 5 to 3.

Leo Roy Lost On Foul to Jackie The power of the Cub bats struck Kremer where it hurt at the Wrigley field, the result was Pirate rout of 13 to 2.

Arthur Brooksbank, secretary of the Prince Rupert Board of Trade, read resolutions from Onah River. Lewis Island, Osland and

Jap Inlet protesting against fish

George Kane expressed the opinion that fish traps should be allowed so that the fishing industry might keep pace with modern developments of other indus-

Ald. G. W. Rudderham appeared to lodge the protest of the city council against fish traps. He believed that allowing fish traps on Portland Inlet would be but the thin end of the wedge which would lead to traps all over the district. As a result, the fish would be depleted and the fishermen deprived of their livelihood.

William Beynon read a resolu-

Ambrose Reid dealt further with the effect fish traps would become. Mr. Reid also declared to depleting the salmon fishery

Mike Anderson presented peti-

R. R. Payne of the Canadian Fishing Co. told how his comcannery in 1924 for \$233.00, paysanctioned. American traps in Steamboat Passage had taken 735,000 fish in 1928. All his company asked was permission to operate traps there so they could get a share of those fish. He did not think that traps would adversely affect fishermen in Portland Inlet. As for conservation, he believed that it could be attained by such regulations as the weekly close season. Fish traps were easier to regulate than any other method of fishing. Mr. Payne gave figures to show that three of his company's traps in 1925 had taken a total of 105,426 fish the most of which were pinks and chums. Over fishing could be caused by any kind of

Asked Questions

Mr. Payne was being questioned by opponents of fish traps when adjournment was made.
