Tells Women's Canadian Club of Importance of Mining Industry

Describing how mining development had contributed to a large extent in the progress of various countries of the world, Dr. H. T. James, resident mining engineer for the provincial government, gave an interesting address before the Women's Canadian Club on Saturday afternoon. Before gold discoveries had been made. Australia was little more than a penal colony, stated the speaker. In South Africa the diamond mining had contributed largely to the development of the country. The speaker referred to the mines of Ontario and briefly to mining on this coast.

Mrs. Morris Blott, vice-president, presided at the tea in the absence of the president, Mrs. C. McLennan. A vote of thanks to the speaker was passed on motion of Miss Norah Rivett. Miss Halliwell presided at the piano for the singing of "O Canada" and the national anthem.

THE was an insistent purchaser of local products. She knew the security of her home depended largely on herself, and all mothers like her-depended on their insistence of securing local products. For it was directly through the prosperity and increasing activity of local industry that the men folk of her country enjoyed secure positions and steady employment.

A Fable for Merchants and Salesmen

That is why, when shopping for an outer garment for her son, she demanded local product. The store clerk hesitated and told her the article she required was out of stock at present, but that a certain foreign-made article was "just as good." She refused the foreign garment and left the store.

Back of this mother's insistence was a pride in the products of her homeland -the true peacetime patriotism.
