Offers for Owen Lake Property; Columario at Usk Looking Good; Rocher de Boule Ships Ore

Frank H. Taylor, Smithers mining operator, is on a trip to Vancouver on business in connection with his Owen Lake mining enterprises, for the financing of which on a large scale he has received several anuring offers. There is a possibility that the present negotiations will bring to the Owen Lake area the financial resources of an important mining company. There is also the alternative that the organization already pro vided for Owen Lake will be set SWELTER WILL in motion.

MY KITCHEN NOTEBOOK

Giving Vegetables New Frills If your family inclines to a diet meat and bread and potatoes, you' have to lure them into the vegetable habit by subtle, feminine wiles. Le your vegetables appear in new guises, their downright, honest virtues adorned with all the trimmings of new sauces and new flavors that your imagination can devise. Remember it isn't the gir with the commonsense shoes and the mannish tie that wins hearts.

High among the vegetables to which we owe allegiance is spinach. Rich in iron, rich in vitamins, it should be eaten much more often than it is. Yet somehow noses turn up at the word "spinach." I blame the cook. I wonder if she has served it au gratin, with a hol naise, or combined with onions or jeel and cream sauce in a most tempting

The Sauce Is the Secret A fine cream sauce is times innumerable the making of a vegetable dish. There's practically nothing it doesn't go well with, practically nothing that doesn't take on added deliciousnessyour sauce is a really good one. I have a recipe that is really wonderful-richer, smoother, creamier, more delicious flavor by far than the ordinary recipe. It's made with Carnation Milk.

Of course you know that Carnation Milk is more dependable—certain to be pure and sweet-which ordinary milk isn't always. But for Cream Sauces there are certain other qualities particcream content of Carnation Milk, which when you use it undiluted, gives | with 1 cup water or meat stock; cook a sauce twice as rich in cream as ordinary milk.

Then there is its "homogenization" "Homogenized" milk has all the cream globules broken up into very minute particles; these tiny cream particles distribute themselves all through the milk instead of rising to the top. Every drop of milk is rich in cream, and imparts it richness to the cooking in which it is used. In addition, "homogenization"

gives a notable improvement to texture -sauces are creamier, cakes finer ter. tured, ice creams smoother and richer. If you haven't tried Carnation Milk cooking aid. Remember, it's just the purest of whole milk, evaporated keeping. Write for "My Hundred Favorite Recipes." It's free. Address Carnation Milk Products Co., Limited 134 Abbott Street, Vancouver, B.C.
