McPhee left last week for southern states, havnere sea tale that crabs, lobsters and crawfihs can throw off a leg and crawfish can throw off a leg unconcernedly as if the deserted limb were a piece of seaweed. This fact not only has been verified scientifically,"but Dr. Florence Dowden Wood and Dr. Horace Elmer Wood II. of New York University, have found out how the lobster and his kin do the trick. The method has long been in dispute, as it is one of those it is quicker than the eye. At one moment the fisherman holds his lobster, and then without a visible move on the lobster's part the captor suddenly is holding only an unattached leg. The Woods found that the joint which parts company. Even ing it loose. Nor has an inhibitory barbeen found that would flexing too much and losing all his legs at once. Even this does not much matter to lobsters and crabs, for they are able to grow new legs at the next leg severs there is only the tiniest TRIDEEWER opening sufficient for one blood vessel and a nerve to extend through to the extremity, and consequently there is no risk of bleeding.

NEW YORK, Feb. 6.-It is no

moves in which the leg that does crustacean flips off his leg at will by flexing one muscle near the if no one has hold of the leg, this muscle flexing is capable of castprevent a careless lobster, who might be taking his morning expreise while still sleepy, from moult. At the joint where the

The Greatest Man in the World

ite Insurance Service

A The Love That

Never Dies

THE OWNER AND A DESCRIPTION OF A DESCRIP

TO those dear to you, you are the I greatest man in the world . . . the wisest and the most far-sighted. They trust you to protect them from hardship and privation. And to the best of your ability you would do so.

Yet there may come a day when you will no longer be here to shield them . . . to provide for their needs. Will their faith in you then be justified?

You realize that their confidence challenges you to greater vigilance in their behalf. Have you made the provision for them that you know to be

necessary? Is your Life Insurance sufficient to meet their needs? Do you realize that \$5,000 invested at 6% yields an income of less than \$6 per week?

For the sake of those who love and respect and trust you . . . those to whom you are the "greatest man in the world" . . . take pencil and paper, and figure how much you have done toward the building up of an estate. Then call in the representative of any Life Insurance Company and learn how little is the cost of adequate protection.
