As you know yourselves out in the islands, this part of the province has been neglected too long and it is about time that something should be done to put our claims forth in the strongest manner, in order to offset the strong pressure of the big interests in the south. It will take the full co-operation of the north and of the Peace River to keen un this fight and force recognition of our rights and I must say that peoale begin to realize the necessity of unity of action. But even in the south we have friends that are helping us, meir numbers will grow every day because they cannot help well as the Peace River farmers' right to have the product of their labor get on the world market by the most economical and shortest route. They are the people most interested in the question.
