New Cruisers and Other Craft to Be Built but Reduction Made in Total Expenditures Over Last Year

LONDON, March 8.—Naval estimates for 1929 show a decrease of 1,485,000 pounds over last year, but there will be no diminuation of the strength of the fleet and naval air service. On the contrary, modern developments have shown necessity for additions. The net total for the year's estimate is 55,865,-000 pounds.

The 1929 program includes provision for commencing the construction of three cruisers, one flotilla leader, eight destroyers, six submarines and smaller auxiliary vessels.

Two cruisers of the 1928 program not yet laid down are being ordered.

Hugh Guthrie Urges That If United States Takes Action Against Canada This Country Reciprocate in Kind

OTTAWA, March 8.—Speaking in the budget debate, Hugh Guthrie, acting Conservative leader, suggested to parnament how Canada can meet the increased United States tariffs against Canadian farm products. In the first instance, he suggested, stop importation of farm products into Canada; secondly, to supply from Canadian farms those agricultural products which are now imported into the Dominion.

Mr. Guthrie, in making the suggestion to the government, stated that the Dominion is now importing agricultural products from the world to the annual value of ap-

proximately \$60,000,000.

To the United States, Mr. Guthrie said, Canada sells annually farm products valued slightly over this sum. If the United States closes its door on Canadian agricultural products, Canada could close hers on similar products from the rest of the world. The Dominion is in a position to supply her needs.

"To accomplish that," Mr. Guthrie said, "all we need is a government with some courage. All we need is a government with some resolution and a government that has. the real interests of the people, of the farmers, at heart."

Five Drown at Aberdeen Washington in Early Morning

ABERDEEN, Wash., Mar. 8:-Five were drowned and three saved when two sedans drove off the open end of Wishkah Bridge near here early today when one of the automatic gates failed to function. The dead are: Carl Corey, driver of the first machine; L. T. Corey, Carl's father, Charles Porter, driver of the second car, Jim Collins and a man named Harrison. All were loggers. It was said that Corey didn't see that the bridge was open and whizzed off the span into the darkness. The second machine followed before Porter could apply the brakes. The bodies were not recovered up to this morning.
