GRANDMA'S NERVES ARE WELL AGAIN

And Grandma is feeling fine since using Dr. Chase's Nerve Food

GRANDMA is jolly when she is well. But she got overtired and nervous. She could not sleep nights and the noise of the children got on her nerves.

She seemed downhearted and discouraged, but a friend mentioned Dr. Chase's Nerve Food and by using this great restorative, grandma soon got on her feet again, feeling well and happy.

Now grandma passes the good word along to others who are not as young as they used to be. She has a message of good cheer for those who are seeking new health and vigor.

Vitality runs low as age advances and because Dr. Chase's Nerve Food actually forms new, rich blood and builds up the depleted nervous system it is highly appreciated by women and men, too, who feel the need of restorative treatment.

Many disorders which are attributed to diseases of the bodily organs are really the result of weakness of the nervous system which supplies the energy and motive power of these organs. For this reason remarkable benefits to the general health are frequently obtained by the use of this revitalizing treatment.
