TOURIST TRAFFIC

Every time we hear of the enormous benefits the country receives from the tourist traffic we feel as if we had received a slap in the face because of the fact that the there may soon be power develop- trict, returned last week from highway connecting Prince Rupert with the rest of the ment undertaken at Hagwilget the south, being accompanied by province is not built and therefore we are unable to secure any part of the benefits to be derived from the invasion by motor car.

Today we are told that two hundred and fifty mil- week for a holiday trip to the lion dollars was spent in the Dominion by tourists last coast. year. All we ask is that three or four of those millions be spent in constructing the Skeena River highway and then the country will have the finest scenic highway in British Columbia.

It is any wonder that Prince Rupert people are anxious brick yard has again started producto have a new province when in twenty years all the road tion built by the Provincial Government has been five and a half miles and now the work is dropped entirely with the furs are being shipped to the market promise that it will be resumed at some indefinite future the district time?

WORK ON GAME GROUND

The Gyo Club has again set itself to some useful work in the city in its proposal to improve the playground at the corner of McBride and Sixth Street. The city own four here last week to spend a holiday with corners of equal size at that intersection and a proposal Hoskins was made that the roads through the centre should be diverted and the four made into one good athletic park at women's Institutes for the Department which games might be played. This did not meet with gen- of Agriculture, has been a recent eral favor.

Just now one of the corners is in use. It was levelled off by the city several years ago and this spring has been used more than ever before. A game of baseball may be a visitor in this district last week on seen in progress there almost any fine evening and the youngsters shape themselves well. While the ground is not in first-class condition, it answers the purpose.

What is needed is a second ground where boys or girls may play football, softball, or another game of baseball parents, Mr. and Mrs. John Bostrum. without interfering with the one already in progress. The juvenile population is growing, but the facilities for recre- foreman at Longworth, spent several ation are not growing to keep pace with the demand.

The Gyro Club is to be congratulated on its efforts in parents, Mr. and Mrs. R. G. Stearns. the past and on its new proposal. There is plenty of scope for its activities and it is to be hoped that it will keep right here with her daughter. Mrs. v on. We feel sure that in doing so it will have the backing of the rest of the community. Nothing is too good for the boys and girls who are growing up and playgrounds used judiciously are the best means of helping them by teaching Nadina River, Francois Lake, Ootsa them to help themselves.

MARKETING BONDS

When people heard that there was a slump on the stock Lake. market and that prices of securities were doing down The Burns Lake Greenhouses have they did not realize that this might have any effect on tomato and cucumber plants in full the cituation in Drives Damest other than the feet of bloom and a very excellent crop is in the situation in Prince Rupert other than to affect the prospect. stock gamblers. Yet this slumping of securities affects the marketing of city bonds and that affects the amount of work which the city may do in improvement work. So bathing in Burns Lake has been a very we find ourselves tied up with the gambling interests, the progress of one affecting the progress of the other.

SALARIES OF MEMBERS

Some people are never satisfied. After striving to be business trip to Prince Rupert elected to represent the people of Canada in the House of recently. Commons the members tried to advance their own salaries from four to six thousand dollars or thereabouts in week from a brief visit in Anyox. addition to travelling expenses. These 235 members, along with 96 senators, draw down quite a lot of money already, the senators being paid the same amount as members of the Commons and that for doing almost nothing. on Texas Creek, is here on a trip

Happily the Mackenzie King Government refused to in conection with his interests. grant the request for an advance and the members have to continue on that meagre pittance of four thousand or \$333

Puffed Rice

Is Good, Too

Quaker Puffed Rice is puffed like Puffed Wheat. The food cells are exploded and broken down. Puffed Rice is another delicious dainty, full of the ready energy of fine white rice. For variety, keep both kinds in the house.

Even Appetites Quaker Puffed Wheat

THEN children are finicky and choosey ... won't eat this, and won't eat that ... but crave for things that are none too good for them.

Then let them have Quaker Puffed Wheat. Serve it at any time of the day or at any meal. Use berries, jam or jelly, or just milk or cream.

These crisp and delicious food morsels make an instant appeal to fickle appetites. Puffing the whole wheat grains to eight times their natural size cooks them thoroughly and gives them a texture and a nut-like flavour which children revel in. Millions of food cells are exploded in each grain. Rich food stores are released and made easy for digestion. All the bran is retained but so concealed you do not notice it.

Quaker Puffed Wheat tempts the lagging appetites of grown-ups, too. At any meal or as a snack between meals.

ON LIGHT GREAT MOTOR CARS

AND VALUE-LEADERSHIP

IN EVERY PRICE CLASS

In each of these eight cars, superior performance and mechanical excellence are combined with body style and value which Fisher Body and only Fisher Body can give. The body value which General Motors cars with Body by Fisher gives is so great that for anything comparable one must go to cars several hundreds of dollars higher in price. This value is apparent. Every Fisher Body, even at first glance, conveys a conviction of greater

value and quality which becomes the more vivid and impressive, the closer the inspection. This value is revealed to any motor car buyer in the finer, richer, obviously more expensive upholstery cloth; in the better, more durable grade of carpeting; in the genuine selected plate glass;

CADILLAC LA SALLE McLAUGHLIN-BUICK VIKING OAKLAND OLDSMOBILE PONTIAC CHEVROLET

in the painstaking craftsmanship which creates perfection of finish both inside and outside; in the artistry of the appointments and in the smooth, lustrous, lasting finish which is applied to the exterior of every Fisher Body. It is honest value through and through - value which is present in the hidden parts of the frame work and the roof-value which accounts for the celebrated staunchness and long life of every Body by Fisher. The eight cars which bring you

this finer style and greater value of Fisher Bodyare exceptionally fine cars in the way they perform and in the satisfaction they afford. I You will serve your own interests "ell by selecting your next car from among this group, the names of which are listed above, all with Body by Fisher.
