BEAUTIFY PRINCE RUPERT

For many months we have said little or nothing about beautifying Prince Rupert. We do not wish to tire our readers with the subject, but now that spring is here and everything is growing, congratulations are in order to and pantie that you see sketched just the right place, the running ity of the salmon must get those who have worked hard this spring to improve their here. It is a white silk crepe, salmon cannot possibly avoid it. through and reach the spawning gardens and brighten up their premises generally. A great tailored, with a step-in attach- God gave this fish that in- grounds. improvement is noted every season and this one has been ment which makes lingerie un- stinct, that he should go to cereven better than most previous years in that respect. hecessary in hot weather. Note tain grounds for spawning, and There are more gardens cultivated, lawns planted and cared for, and general improvements made than Prince Rupert has ever seen before.

The great feature of this movement is that it is to a The Letter Box large extent self-extending. If a few people get interested, the neighbors catch an inspiration and get busy on their lots. Some are ashamed to sit back and have people make remarks about their ugly grounds and others have a real love for heauty and order and do the work from a real Editor, Daily News: 417 desire to make the home and the city more sightly.

RENTED HOUSES

There are people who live in rented houses who refuse to make any improvements because they feel that their with Mr. Pooley, attorney-general tenure is insecure. They may move and do not care to do in discharging people where he permanent work for which they cannot be paid. It is finds rank incompetence. My exsuggested that in such cases there should be co-operation berience, in this province for between tenant and landlord. Whenpermanent work is quite a number of years, has been done the landlord might pay part of the cost and the tenant that quite a lot of people have the other part. This would enhance the value of the prop- are neither of use to the party to erty and make life more enjoyable for the tenant and at which they belong or to Canada. the same time be for the general betterment of the city.

READING ABOUT GARDENING

A great many people have been reading the gardening them I came across may have paspage published occasionally on Mondays in this paper. Some suggestions have been made in regard to it by local they never passed that. Some gardeners. Others are a little shy at making suggestions. We are always glad to hear from practical flower growers bring to their senses that there hints as to what to grow and what not to grow and what to are others that can take their do in exceptional cases. It is difficult to secure articles on job and things will go on just gardening which apply to this part of the country because the same. of the fact that few gardens have been cultivated this far north in the past. What we wish to do is to make conditions of life as pleasant here as they are in the south. When we shall find more and more people will live here instead of in the south.

KEEPING MOTHER'S DAY

Next Sunday, May 12, is Mothers' Day. It is a day when young and old are asked to remember their mothers. definitely decide upon this burn-People who have no mothers sometimes make a point of remembering other mothers.

We have a plethora of days set apart for various causes, but this one is different. To some extent it resembles Christmas. Those whose mothers live elsewhere fish traps. will doubtless remember to write to them on this occasion.

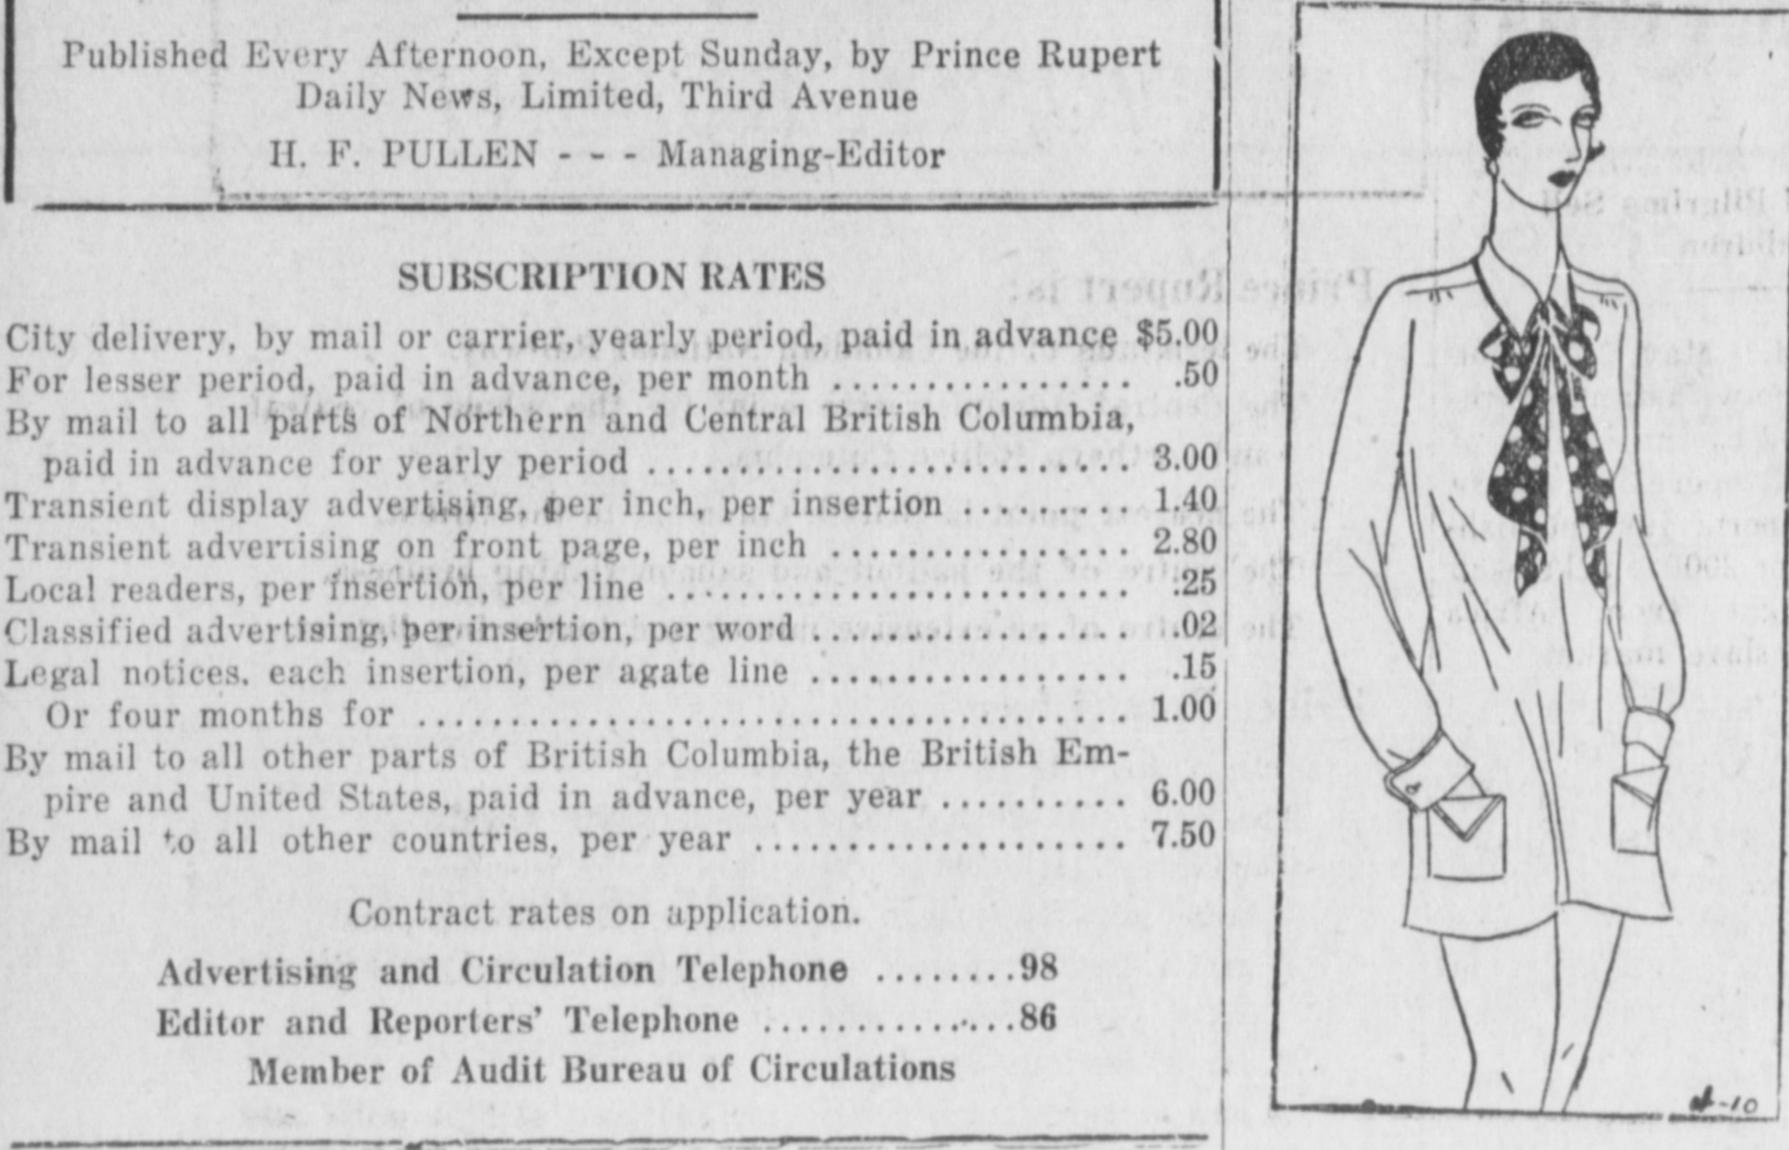

P. G. E. ACTION SOON

It is expected that action will be taken at the next session of the B. C. legislature dealing with the P. G. E. and its extension into the Peace River country. While try-one of the few industries in nothing definite has been decided upon, it is expected that killed. Why? the line will be taken over by the two big railways jointly Only for the sake of "Money." and connected up eventually with the E D. & B. C., which A few smart businessmen have also is to be operated jointly. It has even been suggested found out that, if they could get that the C. N. R. line leading into Prince Rupert should fish traps—they would always also be operated jointly by the two companies, but that have salmon in abundance; they does not seem quite likely.

A great many people would like to see the C. P. R. run they would get entirely rid of into Prince Rupert under equal terms with the C. N. R. these trollers, who always bother and it is difficult to understand why they should not do them about the prices. so. There is plenty of room here for the operations of both I am no troller or fisherman; big companies.

Looking for a house? There are some listed in The traps. Daily News classified columns.

Fashion Fancies

Here's a Tuck in Blouse That Stays Put

With the arrival of the tuck-in blouse for spring suits and sports ensembles came the old problem of what to do with bulging blouses. The answer is the pantie-

the trick pockets.

DISMISSAL OF PUBLIC SERVANTS

While listening at Mr. Pattullo's meeting the other night I was much impressed with the doings in the House in Victoria in regaids to the discharging of civil

THE SALMON TRAP QUES-TION YET ONCE MORE

Dear Editor:

Will you kindly allow me space in your valuable paper for a few remarks re. this matter.

Before the official authorities ing and most important question, they must be aware of the following facts:

1. All the British Columbia trollers are absolutely against

2. Most of the British Columbia trollers will be driven to star-

3. Most of this struggling

PROPOSED NATIONAL ANTHEM

O Canada, our land of priceless worth! We prize above all other lands on earth, With loyal hearts we sing thy praise-Our country great and free, May God protect thee, Canada,

And shape thy destiny. O famous realm, land of the free! Britannia's sons and daughters call on thee To sing of peace, good-will and unity.

Land of the North, where virgin forests grow, Where mountains look on meadows green below. Kind Heaven has blest thy wide domain,

With valley, hill and plain-A changing scene, through all thy length, From East to Western main. O land renowned in history! Shades of thy glorious dead are calling thee,

To sing of peace, good-will and harmony.

Then let us all, who love our country, sing: God bless our land; long live our gracious King

May his vast Empire still endure, When flags of war are furl'd, And justice, truth and peace prevail Throughout a new-born world! O mighty power on land and sea! The nations, East and West, all look to thee, To lead the world in peace and amity. -H. M. Stramberg, in Vancouver Star.

Well Mannered Service to Motorists

tens of thousands of motor car buyers will consider only those cars with body by Fisher

Four basic advantages enable Fisher so remarkably to increase body value while holding down price, as to make Fisher Body, for tens of thousands of motor car buyers, the determining factor in motor car selection. This preference is the result of the greater Fisher Body value which-in cars outside the Fisher Body group-is obtainable only in cars costing several hundred dollars more.

First of these fundamental Fisher advantages, is the enormous resources of the Fisher Body Corporation.

Some idea of the extent of Fisher resources may be realized when one considers that Fisher operates the world's largest manufacturing plant for automobile body hardware and fittings (Ternstedt); one of the largest plate glass manufacturing plants in the world; and harvests timber from its own 200,-000 acres of forest lands and converts that timber into lumber in its own mills.

Another reason for the unprecedented value of Body by Fisher is Fisher's huge pro-

duction, with all that means in reduced costs of fabrication and assemble and huge saving by reason of great purchasing power.

As everyone knows, quantity production is one of the chief factors in manufacturing economy. Fisher employs more than 60,000 persons, who build annually in 48 great factories, upwards of 1,250,000 automobile bodies. Some idea of Fisher Body purchasing power will be gained when one notes that in the twelve months of 1928 Fisher required for the manufacture of Fisher bodies, more than 600,000,000 pounds of steel, 285,000,000 board feet of lumber, 26,000,000 square feet of plate glass and about 20,000,000 yards of upholstery cloth.

2 A third basic reason for Fisher Body value is Fisher's certainty of market.

That market consists of the companies manu-

facturing General Motors cars - Fisher Body Corporation being a division of General Motors. Fisher,

therefore, does not bid for contracts-it always knows well in advance what its manufacturing program is going to be, and to co-ordinate its operations so as to achieve still further economies while maintaining highest quality.

A fourth basic reason for Fisher Body value, is the proximity of Fisher Body manufacturing plants to the chassis plants of its customers.

This eliminates much costly handling and holds down transportation expense, and thus permits Fisher to put still greater value into its bodies.

This explains why Fisher is able to build value so superior as to make Body by Fisher the determining factor today in thousands of motor car sales. Compare Fisher Body cars, listed below, with other cars in their respective price fields and

you see that in Fisher Body cars alone does yourmoneypurchase all the body value you have a right to expect in a motor car.
