

# Bitter or Better Baking

A letter makes a great difference in a word. A word makes a great difference in baking powders.

If the little word "alum" appears on the label it may mean bitter baking.

If the words "Dr. Price's" stand out bold and strong, they surely mean BETTER baking.

This is only one reason why it pays to use

## DR. PRICE'S CREAM BAKING POWDER

Made from Cream of Tartar derived from grapes

Contains No Alum - Leaves No Bitter Taste

### GOOD SUPPORT FOR LABOR DAY SPORT FEATURE

Many Prizes to be Given as Rewards for Varied Sports.

Collectors are now rounding up the citizens for prizes in connection with the Labor Day sports and all report excellent success. The businessmen seem to be generous and are giving cash prizes in most cases. The aim of the committees is to make the day such as has never been equalled in the history of the city and to this end they are working. Within a short time posters will be on the streets announcing to all the full course of events.

In the morning there will be the waterfront sports which always attract so many people and the fishermen's races which were so capably handled last year by J. H. Meagher and Captain J. W. Meagher are being arranged by the same men this year. The gear setting contest will be looked forward to with great interest as it will be remembered that on the last occasion of a race like this all sorts of fish were brought to the surface. The dory races will surely test the fishermen for with one dory pitted against the other the men on the oars will have to pull their best. Nothing mechanical about it, but a pure test of skill with the oars and endurance. A number of the trollers are going to be in port for that day and a race has also been arranged for them. All the above sport features besides being highly entertaining will be educational for it will give the land lubbers an opportunity of seeing just what the fishermen have to endure.

#### Children's Races.

The children will have their fun in the afternoon and graded races for boys and girls will be their chief interest for the day. The little ones always turn out in great numbers when a holiday comes around and the large prizes which are to be given will delight many a heart at the close of events.

There are other sensational features in connection with the land sports. A tug of war will be staged and if it is as energetic as the tussle at the merchants' picnic the straining parties will surely give a fine exhibition. Putting the shot will be another open event and some of the husky chaps about the city who have been practising up are ready to challenge all and sundry. There will be the usual sprint races and jumping which call for the more skilled athletes.

#### Indian Events.

In this year's program of sports a very prominent place has been given to the Indian events. There will be many in the city from the canneries about that time and friendly races among themselves always prove popular.

At the close of the day an informal dance will be arranged, when all fanatics of the trapezoidal art may disport on the well waxed floor till the duties of the coming day call them away.

### STORY OF EARLY MORMON CHURCH

William Farnum at Westholme Theatre is Seen in "Riders of the Purple Sage."

Laid in Utah, in the days when unscrupulous leaders of the Mormon Church were trying to foist polygamy on their followers, the "Riders of the Purple Sage" has to deal with the abduction of a girl by a powerful dignitary of the church, the life-long hunt of her brother for the guilty man and the final accounting when Lassiter, as played by Mr. Farnum, avenges the great wrong on the honor of his sister in some of the strongest scenes ever shown on the film.

The closing scene of this thrilling drama of the great Western desert is staged in the mountains, in a spot of stupendous natural grandeur. To save a girl and her sweetheart from a force of pursuing Mormons, a huge rock is dropped down a sheer cliff, crushing to death many of the horsemen and sealing up the fleeing couple in a valley forever.

### to the Ratepayers of the City of Prince Rupert: Re Proposed New School

We, the undersigned members of the Prince Rupert Board School Trustees desire to draw the attention of the Prince Rupert ratepayers to our reasons for recommending that a permanent public school building, costing approximately \$135,000, be erected on Acropolis Hill.

(A) As to the site, our reasons for choosing Acropolis Hill are:

1. Two-thirds of the school children now attending school are to the south of McBride Street, according to figures supplied by the public school principal.

2. One-third living north of McBride already have the King Edward School.

3. It is necessary to have a school building which will accommodate the school children in the southerly parts of Section One and any from Section 2, Acropolis Hill will be central for years to come until it is necessary to build a school in Section 1.

4. The only other school-site available centrally situated for the present school-going children is the Ninth Avenue site, and the medical authorities advise against the site as being unhealthy in comparison with Acropolis Hill. Acropolis Hill already has a playground which will be available for the Acropolis School and this asset alone should give universal support for the Acropolis site, as it is impossible to make a good playground of sufficient size on the Ninth Avenue site.

5. Only Suitable Site. The only other available site for the school reserve near Hays Creek, but this is only several blocks from the King Edward School, and it would be manifestly unfair to erect another public school so near the King Edward School.

6. The force children from the southerly limits of the city to go to school. Moreover, the Hays Creek site is a very central one for the city as a whole, and for that reason should be retained for the site of our future High School.

7. If we look at a map of the city, it will be seen that the school built, one in Sec. 2, one on Acropolis Hill, one on the present King Edward School site and one on the present Seal Cove School site, will divide the townsite into two equal halves, north and south to north in approximately equal distances, and looking to the future, this is as it should be.

8. Protect Children. Answering the objection that Acropolis Hill is difficult for little children to climb in rough weather, we propose erecting a hand rail from the bottom of the hill, which will assist the children in climbing, and in any event, the hill is only several hundred feet higher than they have at present to go on Borden Street. Answering the objection that there will not be good water pressure in case of fire, it is our pur-

pose to install an electric pump to give this pressure, this pump only to be used in case of fire. A tank under the roof will provide sufficient force for water supply in the school. The city engineer and our architect have both declared this to be feasible.

9. Finally, it is impossible to secure a site which has no objectionable features, and in criticising the Acropolis Hill site the above reasons must all be considered, and though the majority of this Board were at first against the Acropolis site, it is now unanimous in its favor after a great deal of careful thought and consideration.

10. Should be Permanent. (B) As to the erection of a permanent building, our reasons are:

1. We should have a permanent structure erected out of brick, hollow tile, stone, concrete or a combination of these, for the reason that the city can obtain thirty to forty years to repay the bond issue which will make the payments very light upon the present ratepayers; lighter in fact than the payments for a frame structure, the bonds for which would have to be redeemed in ten years' time.

2. Defeat Detrimental. Finally, we desire to impress upon the Prince Rupert ratepayers, in the most forcible manner, that the defeat of the present Bylaw will result in a delay detrimental to the best interests of public school education in the city. The school physician is already complaining about the effects upon the eyes of the children of the rented temporary premises now in use, and as the school population is steadily fast increasing the situation, from the standpoint of school room accommodation, will be desperate before the new building can be utilized.

3. We urge the ratepayers, therefore, to give this Bylaw their solid, loyal support, and thus show the rest of the province Prince Rupert's attitude towards education facilities.

4. ELIZABETH KIRKPATRICK. FREDERICK SHAW. L. W. PATMORE. W. T. KERGIN.

5. Needed at Once. We need a schoolhouse of 12 class-rooms for the reason that we will be able to fill at least eight class-rooms as soon as the school is ready for occupancy, and we should have a few rooms in reserve so that we shall not be compelled to build another school as soon as we have this one completed, which will be our predicament if we build a temporary six or eight room frame structure as some have suggested. At the present time we have all the available room taken in the Borden Street High School, and we will, in September, have at least three class-rooms rented outside of our schools and scattered about the city, with the consequent injury to the health of the pupils caused by inadequate lighting and ventilation of these places. Without a twelve-room schoolhouse we will be unable to cope with any reasonable increase

### MRS. CHARLIE CHAPLIN AT EMPRESS THEATRE

"The Doctor and the Woman" is Play That Has Been Well Received.

Mrs. Charlie Chaplin will be seen in Prince Rupert tonight for the first time in the remarkable photoplay "The Doctor and the Woman." This play ran for two weeks at the Orpheum Theatre, Vancouver, and drew immense crowds.

In addition to the feature the serial "The Fight for Millions," which was broken off owing to a strike, will be continued, commencing with the fourth episode. There will also be an Eddy Lyons comedy.
