THE LABEL IS RED AND WHITE

TT is the double-richness of Carnation Milk which makes it so economical. So rich that it can be used in place of cream at one-third cream cost. So rich that it can be greatly diluted when used in cooking and for other milk uses. Carnation is the most completely useful milk you can buy.

And it has the additional economy of keeping. None is wasted. It keeps several days after opening indefinitely in the tin.

Carnation is just pure, fresh milk evaporated to double richness, kept safe by sterilization. Order from your grocer several tins or a case of 48 tins.
