WEATHER COMPLAINTS

A good many complaints have been made at the unseasonable weather the past few days. Those who complain must remember that in the central states many people lost their lives in the blizzards and in Ontario a million dollars damage was caused by the wintry storms. 'In Seattle there was snow and nearly every place suffered more or less wintry weather. A letter just received from California states that for only the last few days has it been warm.

ATHLETIC PARK

This is a good time to investigate the question of an athletic park. If there is room for it in McClymont Park, it will be useless to secure it elsewhere, but if that site is not suitable, then steps should be taken to secure land for one. While the ground at the Acropolis Hill will doubtless be useful, there should also be a piece of land suitable for rugby, football and lacrosse.

SAVED BY GRACE

Prince Rupert's financial position was saved by grace. Only the fact that she was able to sell the power plant made it possible to get by without raising the tax rate to an inordinate amount. As it is the city is to be congratulated on her position. Whereas two or three years ago her man tax rate was 50 mills on the dollar, since that time the assessment has been reduced considerably and the tax rate will probably this year be 45 mills. The future financing of the city will also be improved.

Years ago the Grand Trunk Pacific Railway obtained concessions from the city of Prince Rupert on the strength of going to erect a fine hotel. The work of excavation proceeded and a large sum was spent getting out the rock in readiness for an immense hotel building. That was as far as it got. The railway obtained the concessions, but Prince Rupert did not obtain the hotel. Now it is announced that the site is to be subdivided and sold. So goes the last hope for a big railway hotel. There may possibly be a hotel, but not the big one. It was a dream.
