District Engineer Says Investigations Are Still Being Made

The following letter refers to a story published Saturday, when an article from the Omineca Herald was quoted:
Editor, Daily News:
I wish to correct the impression conveyed to the public in an article appearing in your issue of the third instant, headed "Aerial Survey Completed." To the best of my knowledge, no decision has yet been arrived at. It is true that outlook was not very promising on the first flight, but other possibilities would have to be looked into before any definite conclusion could be arrived at.

"It is So Pure"
Mrs. Alice Mills of Victoria sends a lengthy letter to Pacific Milk which we are extremely glad to acknowledge. We take but a single observation from it.

"Pacific Milk is so pure, so absolutely pure, it is the milk for babies."

writes Mrs. Mills. The great value of the letters we receive is the splendid source from which they come—practical experience. The writers use Pacific Milk and know it.

Yours truly,
W. K. GWYER,
District Engineer.
