THE DAILY NEWS

Published Every Afternoon, Except Sunday, by Prince Rupert Daily News, Limited, Third Avenue H. F. PULLEN - - - Managing-Editor

USE OF CANOES

The incident on the local harbor Monday afternoon when two young men passengers from a tourist steamer lessayed a canoe trip and were dumped out when their boat capsized goes to show that care and skill when using such fragile craft is essential. Fortunately, fatalities such as might have occurred then have been fairly rare around Prince Rupert in recent years. In order that they may be avoided, persons who would make such trips should exercise both skill and care and those around should endeavor to prevent others from embarking on such excursions unless they are assured that they are capable. The canoe, to say the best of it, is a treacherous craft.

SCIENTIFIC PROGRESS

While prospectors are ever in search of precious metals, the discovery of which may bring fortune to them, scientists are as assiduously delving into the unknown in an effort to make discoveries which may frustrate the other's aims. Such discoveries as that reported yesterday where two New Zealand alchemists have devised a process whereby other elements may be transmitted into gold is an interesting one and may, quite possibly, prove a revolutionizing one, particularly if it is followed up with other discoveries along similar lines.

The last twenty years has educated the world that almost anything in the way of scientific discovery and notion may be possible. Where it is all going to end can only be a matter for speculation—and imagination.

GOOD ADVERTISING

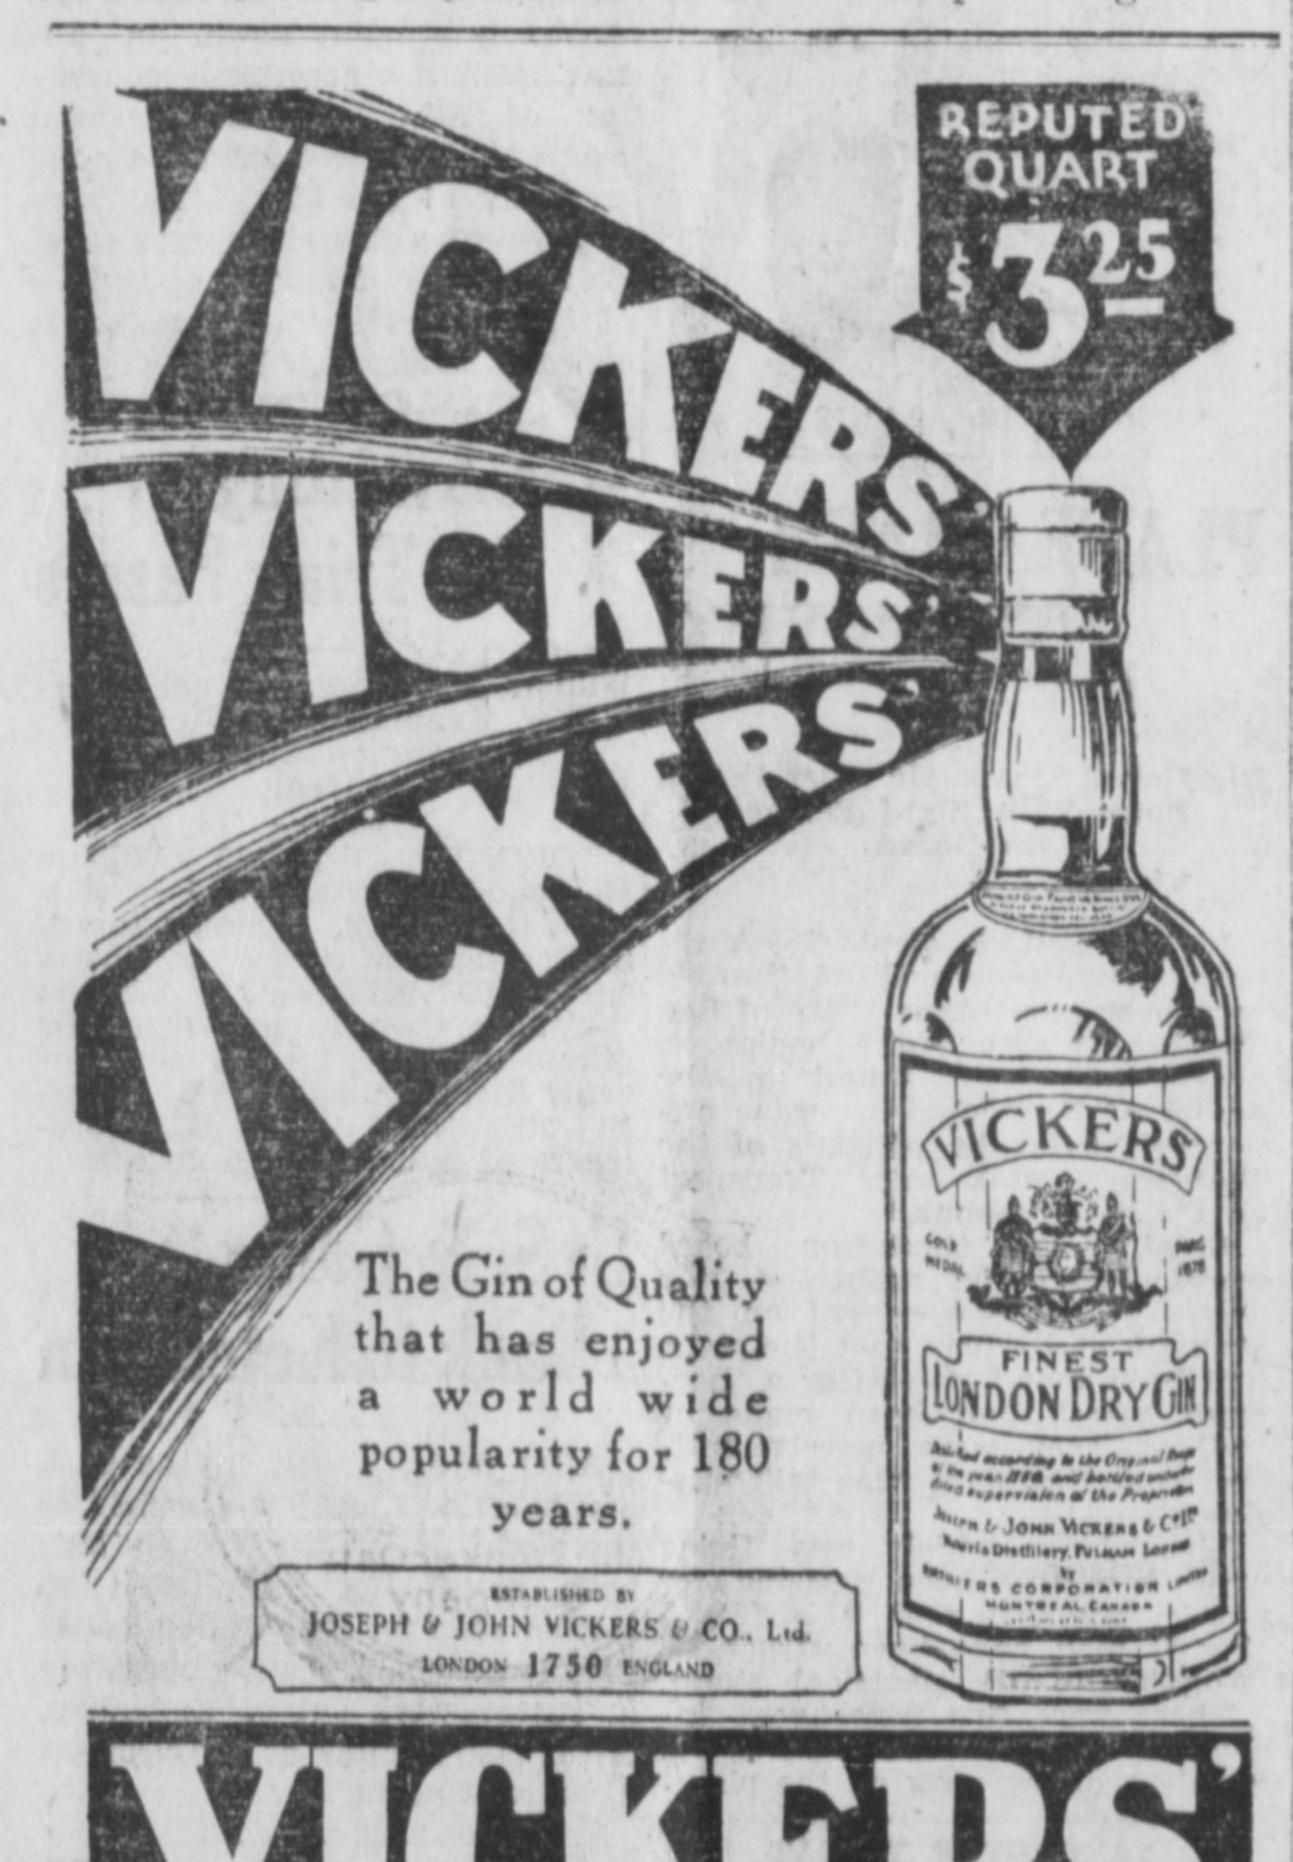

Canada now has 32 trade commissioners' offices located in the world's greatest business centres. During the past year six new offices have been opened in Panama, Greece, Peru, Norway, United States and Hong Kong.

Hon. James Malcolm, minister of trade and commerce, is using paid advertising to acquaint business men with the locations of these offices and the names of the commissioners. His advertising shows just what services these offices are able to render. It also appeals to producers to study the export trade possibilities inherent in their own business.

SASKATCHEWAN

The graceful thing for the Gardiner government in Saskatchewan to do, it seems, would be to stepdown and allow Dr. Anderson to form an administration. Apparently, though the poll was not decisive, the people of that province desire a change. There are many political observers who fail to see wisdom in the course Premier Gardiner is following in holding on so obstinately to a hope which, at best, seems forlorn.

There is a political stalemate in Saskatchewan and neither of the major parties is in a position to legislate to advantage. Control under present conditions can only be short lived whichever party may now gain it. Another appeal to the vo'ers must be made in the near future and it is difficult to see where Premier Gardiner is gaining political prestige by the tactics he is now pursuing.

lictor-Radio Micro-Synchronous

The Greatest Achievement in Radio History!

VICTOR
RADIO CONSOLE R-32 \$255 (Complete with tubes)

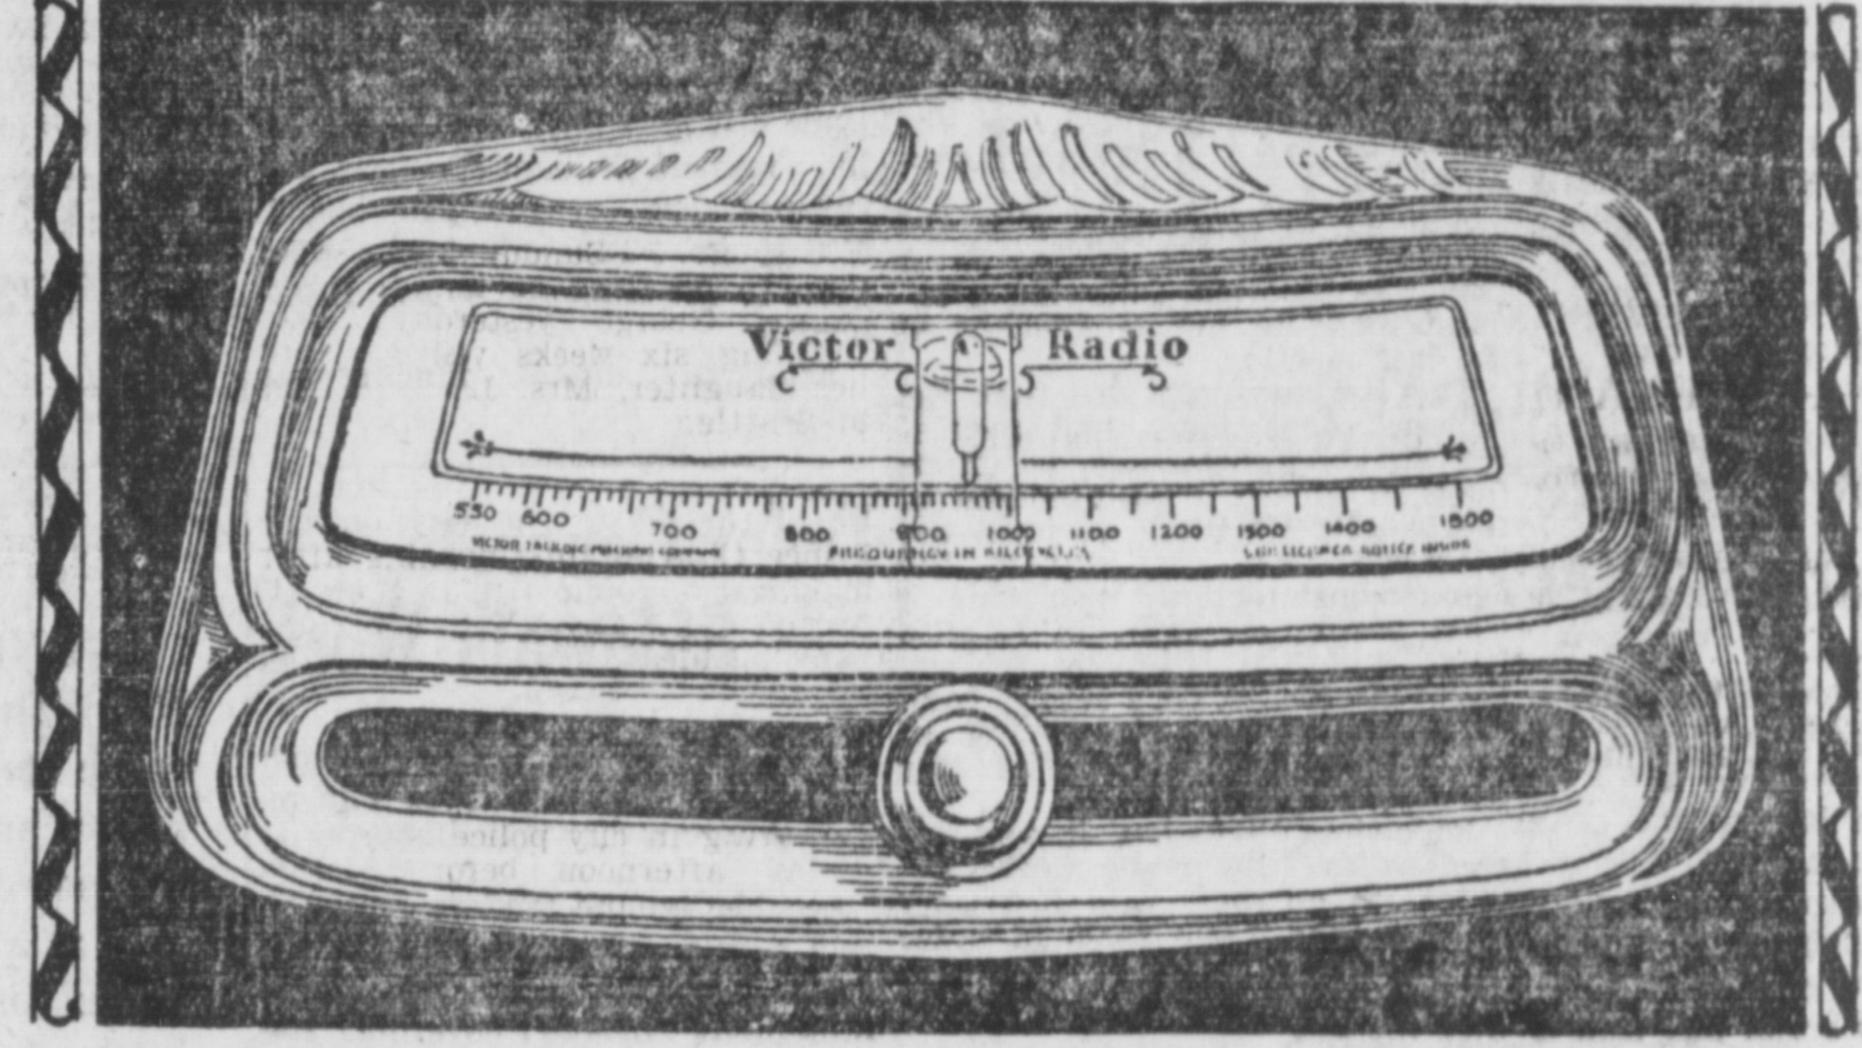

RADIO-ELECTROLA RE-45 \$375 (Complete with tubes)

Outstanding VICTOR Features

- Micro-synchronous balance: Every element in micro-exact resonance at any frequency. Condensers automatically harmonized. Unprecedented sensitivity and selectivity. Perfect performance through the entire range of the dial for the first time.
- 2 Super-automatic, full vision, illuminated sta-tion selector . . . as illustrated.
- 3 Improved circuit developed by Victor . . . unparalleled stability and fidelity.
- A Push-pull amplification . . . introducing the new power Radiotron 245! Greater, and undistorted volume with the entire musical scale.
- 5 Three separate and distinct units interchangeable . . . all accessible . . . all parts shielded with scientific thoroughness.
- Marvelous new improvement in the Victor O electro-dynamic reproducer . . . re-creates the quality of voice or instrument in all its lifelike realism.

7 Compact cabinet design of all-Victor crafts-

- manship . . . exquisite in every line. Harmonizes with the furnishings in the finest
- 8 A remarkable new improved Electrola that reproduces the new Victor V.E. Orthophonic Records in all their brilliancy.

FULL VISION, SUPER-AUTOMATIC STATION SELECTOR: ALL STATIONS PLAINLY AND PERMANENTLY VISIBLE · · · JUST SLIDE THE KNOB TO RIGHT OR LEFT — IN COMES THE STATION YOU WANT!

N exclusive Victor development which completely revolutionizes radio performance . . . the goal towards which acoustical engineers have striven since the birth of radio.

. . a radio so utterly new in design . . . so radically new in principle . . . so astoundingly new in performance that no other instrument can compare with it.

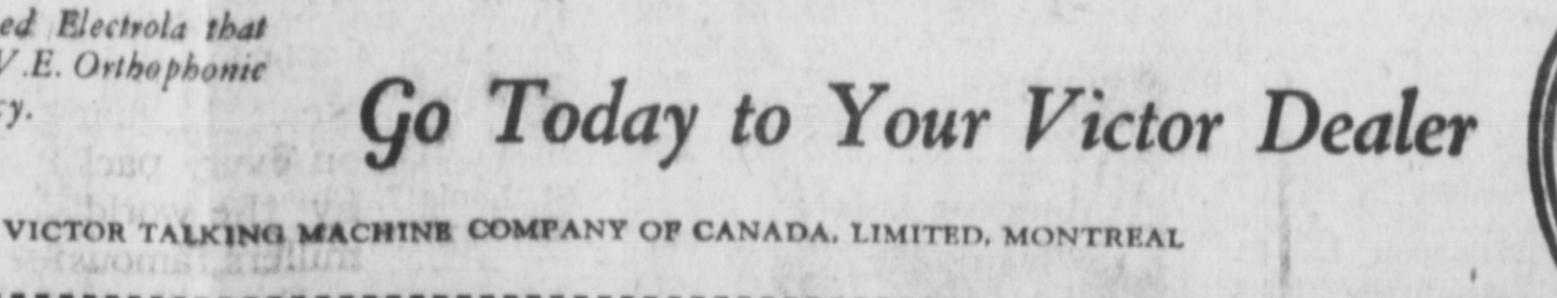

. . . a radio that Victor has withheld from the world . . . until the last detail was tried and approved - and tested under every conceivable condition in every section of the continent.

. . a radio which, for the first time, produces acoustic symmetry - the perfection of tone fidelity . . . at every point on the scale! Incredibly realistic . . . high notes and low notes in their proper proportions . . . bass! . . . deep and realistic! . . . higher notes! brilliant and expressive! A radio that employs two of the new-type Radiotrons 245 which have set the whole world talking.

Victor's own exclusive radio . . . built into a console cabinet of exquisite Victor workmanship . . . a radio you will be proud to

Here's more news . . . Victor-Radio can also be had with the new improved Victor Electrola - combined in one handsome compact cabinet . . . both attuned to the same electro-dynamic reproducer. Now-for the first time, tone quality from radio to match the marvelous new Victor V.E. Orthophonic Records!

The prices are amazing! Only \$255 for the Victor-Radio Console . . . only \$375 for the Victor-Radio-Electrola. No musical instruments in the world offer you so much at any price! - and on time payments, too!
